FOREIGN MINISTER OF FRANCE MAKING TOUR OF ENTENTE CAPITALS

Has Mandate to Speak for Both Great Britain and France in Reassuring Eastern European Countries Regarding Policy Towards Any German Desire for Free Hand

PARIS, Dec. 1 (AP).—Foreign Minister Yvon Delbos will leave tomorrow on a tour of four capitals to patch France's political fences. His trip, to last seventeen days, will take him to Warsaw and the Little Entente capitals, Bucharest, Belgrade and Praha.

He hopes to get a new promise from the countries—Poland, Rumania, Jugoslavia and Czechoslovakia—of faithfulness to their alliances with France.

Speaking on behalf of both Great Britain and France, following a mandate given him in London during the recent Anglo-French consultations, he will try to assuage fears expressed in the four capitals that Great Britain might leave Eastern Europe to Germany in return for a full settlement of the western part of the continent.

Foreign Office sources said M. Delbos would give France's allies assurance Great Britain stood with his country in "taking an active interest" in Eastern European affairs

BLANKET LAWS ARE PROTESTED

Opposition in Legislature Objects to Delegation of Law-Making Rights

Concerted drive was made Opposition forces in the Legislature yesterday against enactment of blanket bills, leaving unstated regulations to be made by the Province with the subsequent effect of substantive parts of the law. The point arose in several debates, once on the Securities Bill where blanket powers are left to the Attorney-General, and once in a bill to provide for inspection and grading of farm products, where unstated powers were left to the Minister of Agriculture.

"Any Government ought to be placed in the position where it is given authority to meet any situation as it arises . . . Personally, I feel a little rebellious at times at the degree of regulation which seems necessary. On the other hand, what are you going to do? Are you going to allow people to do as they please?" Premier Pattullo declared at one point. The provisions would be used fairly, he said.

DISPUTED CLAUSES STAND

The blanket clauses in both measures stood under steady fire from Conservative benches, supported on this occasion by all ranks of the C.C.F. The making of laws by regulation outside of the Legislature was unparliamentary and undemocratic, and the delegation of such authority should not be sought from the House, the Opposition claimed, not without some support from Liberal benches.

Minimized by Hon. K. C. MacDonald, who said the bill was intended merely to enable the Province to appoint Federal inspectors to carry out the terms of Federal law, made doubtful in British Columbia by decisions of the Supreme Court of Canada, the measure to grade, inspect, and otherwise control all fruit, honey and vegetables in British Columbia went through third reading, after spirited debate. The Securities Bill was left in committee, with all but three sections read, and progress reported for the day.

RUNS AHEAD OF FIRE ENGINE TO CALL OUT DIRECTIONS IN FOG

VANCOUVER, Dec. 1 (CP).—What proved to be a false alarm sent a fire hall company crawling through fogbound South Vancouver district last night—without their usual siren wails and without the captain in his department car.

Captain S. Heathcote ran ahead of the trucks, calling back directions as the heavy fog reduced visibility almost to zero.

SAYS CHANGE IS ESSENTIAL

Manitoba Treasurer Tells Commission Financial Relations May Be Altered

WINNIPEG, Dec. 1 (CP).—All theoretical arguments aside, the experience of the three Prairie provinces in the last five years is that the financial arrangements of Confederation simply do not work, the Royal Commission on Dominion-Provincial Relations was told today by Provincial Treasurer Stuart Garson, of Manitoba.

"Not only has the financial plan of Confederation not worked," he said, "but there is no indication that it will work for all provinces, even with the return of such normalcy as we can legitimately expect.

"To prevent the Western provinces and municipalities being forced into default, Canada must provide an alternative plan which will work, or be prepared to face the inevitable consequences of such default to the business and financial world and to the credit of all Canada."

SOCIAL SERVICES

As Canadians, citizens of Manitoba were entitled to receive their share of a national minimum standard of social services without wrecking the finances of the province and municipalities to provide such a standard, as had been the case in the past five years.

At present that reasonable minimum of education, public welfare

RADIO STANDARDS MUST BE RAISED

United States Federal Communications Commissioner Sees Danger To American's Mentality

CHICAGO, Dec. 1 (AP).—A blunt notice that the standards of radio programmes must be improved—by law, if necessary—was served upon United States broadcasters today by Federal Communications Commissioner George Henry Payne.

Contending the ether waves were the inalienable property of the public, he told the national conference on educational broadcasting:

"The ideals of the broadcasters must be changed. 'Like the moving pictures, the average programme of the broadcasters is addressed to an intelligence possessed by a child of twelve. It is important to raise this average to the adult age; otherwise there is the danger that radio will perpetuate mental immaturity in the grown-up."

Italian Paper Indicates Mussolini's Approval of Bid for War's Cessation

MOMENT PROPITIOUS FOR THE JAPANESE

SHANGHAI, Dec. 2 (CP-Havas).—A second German attempt to mediate the Sino-Japanese conflict was reported today as Tokio's divisions closed in on Nanking.

Dr. Oskar Trautmann, German Ambassador to China, was said to have gone to Nanking from Hankow, temporary headquarters of the Chinese Foreign Ministry, after requesting an audience with General Chiang Kai-Shek, head of the Chinese Government and army.

Italian approval of this bid for an almost immediate cessation of the conflict was seen in the article published yesterday by The Popolo D'Italia, Premier Mussolini's paper, (Declaring Japan "invincible,"

New Strikes Threatening For Mexico

MEXICO CITY, Dec. 1 (AP). — A new wave of strikes threatened in Mexico tonight, despite repeated appeals from President Lazaro Cardenas for industrial peace.

Fire Attributed to Arab Terrorists Fatal to Five in Palestine

JERUSALEM, Dec. 1 (CP-Havas).—Five persons died and five others were seriously burned in a roaring blaze, believed to have been started by Arab terrorists, that consumed a Public Works Department storehouse at Tulkharem today.

Fire-fighters were unable to quench the flames, fed by inflammable material stored in the building. Rescue work was impossible. British authorities believed the fire was started by Arab terrorists, and have arrested a number of suspects.

Near Haifa the bodies of two or three policemen ambushed in the hills by Arab bands were brought back to Haifa. The lone survivor told how his companions were trapped and slain by armed terrorists.

B.C. Legislature Shapes Securities Control Measure

Wide Range of Authority Would Pass Into Hands of Province, With Unstated Regulations Dependent On Subsequent Action—Principle Supported, But Specific Objections Offered

AFTER two hours in committee, amendments to the British Columbia Securities Act, placing stated and unstated powers in the hands of the Attorney-General to control stock trading with particular reference to mining development, were virtually completed by the British Columbia Legislature yesterday. The principle of the bill, with the exception of powers by regulation, was not under attack, and to a large extent the debate was non-political. Clauses four, twenty-two and thirty-four were stood over, and all other clauses approved.

The incompleted clauses deal with the initial registration of concerns with securities for sale within the range of the bill; penalties; and a technical section dealing with the filing of audited accounts.

Attorney-General Wismer piloted the bill, explaining its thirty-five sections, clause by clause. The registration clause had been debated on the day previous. Referring to remaining sections, he sketched out the provisions of the measure, as follows:

All material changes in the financial set-up, assets, state of options, and property rights of concerns

SMALL FREIGHTER SINKS AFTER COLLISION IN FOG AT VANCOUVER

Ten Men in Crew of Ss. Eastholm Escape in Lifeboats as Ship Founders in Entrance to Harbor After Striking Timber-Laden Scow—Picked Up by Venture

Dense Mist Blamed for Series Of Accidents in Mainland City

VANCOUVER, Dec. 1 (CP).—A drizzling rain cleared fog from Vancouver's streets and harbor tonight, but not before a marine collision left a coastal freighter sinking, and traffic accidents had injured five persons, none seriously.

The ninety-foot freighter Eastholm was believed to have sunk just off the entrance to Vancouver's harbor after a collision with a lumber-laden barge in a dense fog. Her crew of ten took to the lifeboats and were picked up by an incoming coastal passenger vessel.

The crew was attempting to "beach" the wooden freighter, damaged in a collision with a heavily-laden timber scow, when she began to sink. The bow, crumpled in the collision, was under water and the craft was sinking rapidly when Captain G. G. Brown ordered his crew to the lifeboats.

PICKED UP BY STEAMER

The men, whose flashlight signals were sighted by the Union Steamship Company's Venture, a coastal steamship, were picked up and taken to Vancouver.

Captain Brown said when he last saw the Eastholm her bow was submerged and only her stern was above water. It was believed she had gone under.

Wild Scene In Court in California

SAN FRANCISCO, Dec. 1 (AP).—A general riot flared in the court of Superior Judge Frank T. Deasy here today a split second after a jury foreman read a verdict convicting Arnold Cohn of armed robbery.

Cohn leaped to his feet and tried to hurl the counsel table on its side. Jake Ehrlich, defence counsel, swung a haymaker to his client's jaw. Al Cohn, the defendant's father, ran shouting to his son's side, his fists flailing.

Mrs. Cohn fainted, five policemen and a bailiff held young Cohn's arms. A half-dozen more held the father. Mrs. Cohn was given aid. The son fainted twice.

ONTARIO HOUSE OPENED SIMPLY

Special Session to Deal With Succession Duty Act Amendments

TORONTO, Dec. 1 (CP).—First session, a special one, of Ontario's twentieth Legislature was opened today in simplest possible fashion, with only a trace of customary formalities.

Hon. Albert Matthews, sworn in yesterday as Lieutenant-Governor, formally opened the House—called to deal with Government bills to amend the Succession Duty Act, 1934—and the formal opening took only a minute or so. Eighty-five of the ninety members were present.

The House will get down to business tomorrow with second reading on the three Government bills and committee stage may be reached on one or two of them.

Victoria's appointed police commission will be abolished and that board made an adjunct of the City Council in future, by virtue of amendments to the Municipal Act introduced in the Legislature yesterday by Hon. A. W. Gray. The Mayor and two aldermen, approved by the Province, will form the commission, with two as a quorum.

Another clause in the same bill leaves it to the discretion of the inspector of municipalities to say what proportion, if any, of their legal sinking fund allotments British Columbia municipalities will set up in 1938 and 1939, waiving any by-laws to the contrary.

VANCOUVER HAS BANK HOLDUP

Robber Deemed "Inexperienced" by Police Succeeds In Making His Haul

VANCOUVER, Dec. 1 (CP).—Vancouver police tonight sought an "inexperienced" lone gunman who today held up three employees in a suburban bank and escaped with $60 amid a fusillade of shots fired by his victims.

The man entered the bank occupied at the time by Manager S. H. Ewing, Teller A. J. Bird and Ledgerkeeper R. Dickson Wood, and asked the teller to give him change for a $1 bill.

As Bird passed over the change the man produced a revolver and told him to "hand over some money."

The teller passed about $60 in small bills through the wicket and the man fled, pursued by Ewing and Bird, who had grabbed bank revolvers.

As the two bank employees reached the street they saw the hold-up man disappearing in the fog in an automobile and each fired three shots at him.

Police said a check of the manner in which the robbery was committed convinced them that the man was an "inexperienced criminal."

Victoria Refunding Bill Is Approved by Committee of House

Measure May Go to Legislature Today, With Support From Committee and City Members Assured—Consent Is a Factor

THOUGH not yet introduced in the Legislature, Victoria City's private bill was informally approved by the municipal committee of the Legislature yesterday, after city officials had laid their case before the committee with the assistance of city members. The bill may be introduced in the House today, the committee being understood to oppose no objections to it proceeding.

The measure is one to permit the city to refund in excess of $14,000,000 of its debt upon agreement with its creditors, with more than 51 per cent of the debenture holders by value now said to have approved of the plan for extension of the major part of the city's debt, and a readjustment of interest. It would authorize issuance of fresh callable debentures for the retirement of the original debt.

The committee short-circuited customary practice, to consider the bill not yet referred to it, and is understood to have approved fully of its terms.

CITY DELEGATION

Mayor Andrew McGavin, Alderman Lloyd Morgan, Alderman T. W. Hawkins, City Comptroller D. A. Macdonald and City Solicitor H. S. Pringle appeared for the city; A. D. Macfarlane, K.C., for bondholders; Marshall Gordon, for the Esquimalt Waterworks, and H. G. Lawson, K.C., for the Royal Trust Company. Hon. A. W. Gray and Deputy Minister E. H. Bridgman appeared for the Province, assisted by city members who are on the committee, including Alderman Dr. J. D. Hunter and Alderman W. T. Straith.

Protest was entered by John Day in a letter to the committee, contending a payment of $17,000 to C. S. Henley, city's fiscal agent, would not be justified on the ground that the scheme now accepted by the city was not that proposed by Mr. Henley, in the opinion of Mr. Day. The committee took the view it could not deal with that issue, and Mr. Day said he would renew his contention before city authorities.

The actual terms of the bill may be available today, when the measure is printed and laid before the House.

SAYS CHANGE IS ESSENTIAL

Continued from Page 1

and other social services is either not being attained in Manitoba or it was in jeopardy if the provincial financial position is not improved, Mr. Garson said. The provinces had only maintained the services it had by borrowing from the Dominion.

"It is obvious that a continuance of the present policy means that those provinces in which the need for social assistance is greatest are, largely as a result of the conditions that created the need, the least able to provide such assistance," he asserted.

INSOLVENT PROVINCES

The fact that the four Western provinces had to go $127,000,000 into the debt of the Dominion Treasury as their only source of money for relief was proof of this, he contended. The situation was one in which at least three provinces were insolvent.

Finance Minister Charles Dunning had pointed out that the Dominion might become the majority creditor of some provinces if present trends continued, which might indirectly affect their sovereignty.

The unsoundness of Confederation financial arrangements from the beginning was indicated in the prosperity of Ontario and Quebec, while other provinces had been unable to pay their way, he continued.

Through the action of tariffs, manufacturing industries had been abnormally concentrated in Central Canada, with a resultant direct effect on income and corporation taxes in the other provinces.

QUOTES FEDERAL MINISTER

"It is not too much to say that the protective system has fertilized the income tax field in Ontario and Quebec by a process which has resulted in partial impoverishment of this field of taxation in other provinces whose economic development has been prejudiced by the effects of the fiscal policy of the Dominion," he quoted Norman McL. Rogers (now Minister of Labor) in the Canadian forum of December, 1934.

Chairman N. W. Rowell suggested central location, water transportation, water power, mining development would have produced great wealth in Ontario and Quebec anyway.

Commissioner J. W. Dafoe pointed out the complaint was against "abnormal" concentration of industry in Central Canada.

INCOME TAX RETURNS

Mr. Garson compared income tax returns of Manitoba and Ontario for 1935-36 to illustrate his point. While Manitoba had 12,742 persons paying $1,043,179, in Ontario 91,932 persons paid $16,806,390.

"Do you suggest turning over all income tax to the Dominion to spread the benefits of the national income?" the chairman asked.

Mr. Garson said he was not prepared to go that far, since the province was dependent "at the moment" on its receipt from income tax, but he recognized that the corollorary of the position Manitoba was taking in its brief was for the Dominion to take over all income tax.

SUMMARIZES CAUSES

He summarized the main causes of Manitoba's Treasury problem this way:

1. The nation and provinces, were trying to work under a constitution, including its financial plan, based on a social philosophy of the duties of Government altogether different from that of the present.

2. The financial plan of Confederation erroneously assumed that increases in provincial expenditure would be proportionate to population, and that the provinces would benefit from Confederation according to population.

3. Judicial interpretation of the British North America Act placed responsibility for social services and relief on the limited tax base and variable and varied taxable capacity of the provinces, though such responsibility could only be sustained by the unlimited tax base and more uniform taxable capacity of the whole nation.

4. Adverse effects of certain Dominion policies and other disabilities have lowered Manitoba's income to a point where it would not sustain a reasonable per capita burden of public debt and taxation.

5. Because of the adverse effects of Dominion policies and other disabilities and because of its attempt to discharge responsibilities quite beyond its capacity, Manitoba had accumulated a capital debt, charges on which absorbed about 50 per cent of its income.

TRYING AGAIN FOR ROLE OF MEDIATOR

Continued from Page 1

The Popolo D'Italia advised China to sue for peace, asserting Tokio's terms might not prove as harsh as might be expected.)

MAJOR CONSIDERATIONS

Two major considerations were said to be behind Berlin's reported desire to effect an early armistice. First, Germany, together with Italy, was described as feeling Japan would be a more useful ally if its armed forces were not so completely engaged in the hostilities sapping the country's economic resources.

The second motive, according to Chinese sources here, was that Berlin was apprehensive lest a too complete Japanese victory and subsequent control over China's economic life should seriously prejudice the economic interests developed by Germany in this country during recent years.

PROPITIOUS MOMENT

Germany's reported bid for mediation was said to have been made at a propitious moment as far as Japan was concerned. Tokio, believing Nanking's early capitulation a certainty, was described as feeling the time was favorable for an armistice, to avoid a harsh Winter campaign with its forces deep in Chinese territory and communication lines dangerously lengthened.

Japanese financial and economic interests also were said to be advocating an end of the conflict, which has imposed heavy sacrifices.

Tax Collections Equal Estimate Set by Council

City Hall figures show that collection of current taxes up to the end of last month totaled $1,337,503.42. Collection of taxes in arrears totaled $322,344.02. The sums equal the amount the City Council expected to collect for the whole of 1937.

Figures for the corresponding eleven-month period last year were $1,367,209.87 and $290,872.06, respectively.

Last year's collection of current taxes was based on a levy one and one-half mills higher than that set for the present year.

The Juniors in this picture came from the Intermediate School at Hull, Quebec, and represent four nationalities: English, French, Greek and Chinese. Through the medium of this campaign, the Juniors of Canada hope to raise funds to provide hospitalization for sick and crippled children. Since 1919, more than $500,000 have been collected and used to finance medical treatment for 13,795 handicapped children.

FREIGHTER SINKS AFTER COLLISION

Continued from Page 1

Marine authorities said, however, that the damaged freighter may still be partially above water and made plans to dispatch a search boat.

The Eastholm was outbound for Seattle with a cargo of hides and canned salmon when the collision occurred just outside the harbor entrance.

STRIKES SCOW AMIDSHIPS

The lumber barge, inbound in tow of the tug Tarzan, loomed out of the fog and the Eastholm's bow struck it amidships. The freighter sheared off.

Captain Brown changed his course toward the West Vancouver shoreline in an attempt to beach the Eastholm, but had proceeded only a mile when she began to go down by the bow.

The crew launched the two lifeboats and rowed away from their sinking ship.

Meanwhile, the barge, with a large hole in its side, was towed into the harbor. Pumps were engaged to keep it afloat.

The crew of the freighter Eastholm were: Captain G. G. Brown; E. Swank, first mate; T. H. Thomas first engineer; H. Anderson, second engineer; P. David, winchman; H Swanson, H. Charles, Hans Peterson, T. K. Hill and J. Fischer, seamen.

The Eastholm was built in Vancouver in 1913. She was 93 feet long, with a beam of 24.3 feet, and is owned by the Frank Waterhouse Company of Canada, Ltd.

TRAMS IN COLLISION

Three persons were taken to hospital with slight injuries after two B.C. Electric Railway interurban trams collided. An open switch, which sent both trams on the same track, was believed to have caused the collision.

Miss E. Wharry and Gerald Quick both suffered head injuries when a car, which police said was driven by Quick, was in collision with a street car on Kingsway. Authorities laid a charge of driving to the common danger against Quick.

One death was attributed to the fog, which settled on the city Monday. Frank Myers, fishdock watchman, was fatally injured last night in a twenty-foot fall from the dock.

and had refused to give Germany a "free hand" in Central Europe.

TO SOUND LEADERS

The French Foreign Minister would also sound out the leaders of the four nations on a plan stated to have been broached in London for negotiation of a nine-power European pact.

Members of the proposed pact would include Great Britain, France, Germany, Italy, Belgium, Poland and the Little Entente nations.

It was said here such a proposal, although hardly favored by France, because of the exclusion of her ally, Soviet Russia, was being pushed by Great Britain as a means of forming a workable "little League of Nations" to manage European affairs alone.

As if to reassure France's allies on the eve of Delbos' tour, Defence Minister Edouard Daladier told the army commission of the Chamber of Deputies.

ARMED FORCES READY

"Our armed forces are ready and able to keep all our obligations."

In Warsaw, Delbos will attempt to convince Poland of the need for more cordial relations with Soviet Russia and Czechoslovakia.

In Bucharest he will seek Rumanian agreement to a military alliance with Czechoslovakia "good for all occasions." At present, the alliance among Czechoslovakia, Rumania and Jugoslavia calls for mutual military assistance only against Hungary.

Signs of increasing friendship between Jugoslavia on the one hand and Germany and Italy on the other have disturbed French diplomacy. France wants Jugoslavia, too, to pledge military assistance to Czechoslovakia in case of attack.

Cecilians Will Give Programme

Trades Union Act to Be Given Legislature Says Labor Minister

Government Measure to Go First to Caucus and If No Agreement, Bill 62 Will Be Introduced in House, Delegation Told

A TRADES union act will be brought down at this session of the Provincial Legislature, Hon. George S. Pearson, Minister of Labor, told a delegation from the Victoria and District Trades and Labor Council, which met him in the Legislative Buildings last night.

The delegation was sent to the minister from a meeting of the Trades Council after concern had been expressed over the delay of the Government to accede to previous requests for legislation before adjournment of the House, sometime next week.

GOES TO CAUCUS

The Trades Council delegates reported they had been advised by the minister the Government bill would first be submitted to caucus. He also said the Government measure included practically all of the clauses contained in the Trades and Labor Congress of Canada Bill No. 62, which called for the right of workers to organize and other labor legislation. Bill No. 62 was approved at a recent convention of union delegates representing an estimated 40,000 workers in British Columbia, which met in Victoria.

The council delegates stated they were also advised that failure of the caucus to agree on the Government measure would permit the introduction of Bill No. 62 in the Legislature. This bill, delegates said, was favored by the workers of the province. The Government bill, it was stated, might contain legislation not desired and might not include some of the measures desired by labor in the province. The clauses and purport of Bill No. 62 were known to trade unions.

THIRD COURSE OPEN

A third course of action was open to the local Trades Council, which gave full powers to its legislative committee to permit Harold E. Winch, C.C.F. member for Vancouver East, to introduce his bill if the Government bill and Bill No. 62 failed. It was understood that course would be adopted.

The Victoria council, officers said, had taken full charge of the situation in connection with the act "because of the failure of the convention committee to function." Officers declared it had been suggested from Vancouver the workers' convention was illegally called and this was denied at the meeting of the council last night.

Minister of Labor Pearson did not say when the Government measure would be considered in caucus. Nanaimo delegates were present when the Victoria delegation saw the minister.

SHAPES SECURITIES CONTROL MEASURE

Continued from Page 1

whose securities are being offered to the public, must be drawn to the attention of the Crown; and may be advertised by the Province where work stops for more than two weeks.

Assignments and insolvency are added to "bankrupt" provisions of the present law. The Province may seize documents, books, or "things" (including ores and property) in cases where mines or companies are under investigation under the law; and may tie up assets, funds, securities and properties where examination is contemplated, injunction granted, or suspicion of fraud exists, stopping transfer of these assets to others.

NO PRESSURE SALES

Canvassing at residences or by telephone is banned, save between friends or for established "customers"; excepting sale of securities permissive as trust funds in British Columbia, and excepting bona fide promotions under $35,000 capital, where prospectors hold a substantial share of the assets. Radio soliciting is not touched, being outside British Columbia jurisdiction.

Securities may not be advertised for sale with promise of employment offered for their purchase, or for a loan. The Crown may correct misleading information by advertising or other notification, but cannot compel free publication in the press. Such corrections will be privileged. Only registered brokers may style themselves "investment counsel or advisers," and no representation must be made that the Province has approved of any individual salesman, concern or mining scheme.

CONTROL OF EXCHANGES

The Crown may stop trading on an exchange, by preventing any individual dealing in any security concerned, save where such interest is acquired by mortgage or for other cash advances. Stocks may be delisted, or relisted, at discretion of the Province, for cause. Auditing of stock exchange books by a "panel of auditors" was questioned and stood over on the representation chartered accountants should do such work.

The Crown takes over ultimate control of stock exchanges, which cannot be operated without consent, and may be closed or suspended at will. The Attorney-General or his agent may enter exchanges, examine their books and business accounts, and exchanges must file by-laws and by-law changes within seven days after adoption. Executive committees of exchanges are given new rights to discipline trading members, and will be responsible in part for their acts. Business information given the Crown will be kept secret.

Bona fide prospectors will be assisted in getting their stock out of escrow, at the discretion of the Crown, and where necessary. Reports made to the Attorney-General by investigating agents will be privileged. The superintendent of brokers may not be brought under examination in court, but may be examined by legal commission at his office in Victoria. He may not be sued, directly, by reason of his actions under the law.

REGULATIONS IN BLANK

Sustained objection was taken to powers vested in the Province to make regulations "considered necessary and advisable" and with the subsequent effect of law. The clause carried, being Section 20 of the bill.

Among other unstated provisions, regulations may be made to prescribe the financial requirements of brokers; prescribe uniform methods of accounting; prescribe reports and returns; prescribe requirements in prospectuses; prescribe qualifications for officials of mining concerns; deal generally with origination, operation or winding-up of syndicates and other unincorporated groups, and prescribe "fees to be paid for anything to be done or permitted."

Fines and costs will go to the Provincial Treasury. For penalties, $25,000 for companies and $25,000 and six months' imprisonment for individuals are suggested, but not yet approved in the bill.

OBJECTIONS VOICED

Debating the bill, H. G. Perry (Lib., Fort George) said as many people lost money when buying through a stock exchange as did outside of it. He foresaw hardship for small operators in mining ventures and unnecessary regulation on points already covered by the Criminal Code.

The public, stated Thomas King (Lib., Columbia), had no sales resistance and needed protection. Dr. Lyle Telford (C.C.F., Vancouver East) cited an unnamed instance where a concern had been struck from the register but its stock traded on exchanges for some weeks afterwards. This was unloading, he said.

Hon. G. S. Pearson interjected an explanation on B.C. Nickel, stating that that property had a large body of low-grade ore which required processing, while processing was covered by patents with difficulty in securing use of the patents. Exports of concentrates would be the only possible way to handle the ore at present, he declared.

Speaking on mining in general, the Minister of Mines said:

MINING A GAMBLE

"I don't know how you are going to protect the public entirely. You cannot determine the worth of a mine before or at the start of its development. The Government has found the only way is to send an engineer in, and it may require two months to get a report on any particular property. Examination on the ground is the only way, and the situation may change from day to day. My personal view is that mining is a gamble, in its early stages anyway, and gambling is uneconomic."

The Mines Department had been concerned to see that money voted for development in British Columbia went into the ground and not into the pockets of promoters, Mr. Pearson concluded. It was on this note, after some desultory debate, review of the bill was completed, with three clauses held open, as explained. The committee reported progress for the day.

Third readings followed for measures dealing with distress sales, coal mines regulation, marriage law respecting minors, stock refund for the Canadian National Railways, and changes in the metalliferous mines law before the House rose at 5:45 p.m. until 2:30 p.m. today.

Three girls, left to right: Miss Lillian Monasterio, private pilot; Miss Viola Neill, flying nurse, and Miss Evelyn Hudson, transport pilot, all skilful pilots, decided it would be "good fun" to fly from Los Angeles to Vancouver and catch a salmon. Above is a picture of the fishing enthusiasts, taken at Vancouver shortly before they flew back to Los Angeles—a journey which they completed in a day.

WEARS GOWN IN POLICE COURT

Magistrate Henry C. Hall Complied With New Order Yesterday Morning

When Magistrate Henry C. Hall took his seat on the bench in city police court yesterday morning, he appeared gowned as a King's Counsel in compliance with the rule adopted by the Attorney-General's Department, to be followed in the Victoria and the Vancouver courts in future.

No special gown exists for the purpose, but occupants of the bench will wear the barrister's attire to which they are entitled as members of the bar.

The practice of being gowned while on the bench began December 1 in the two cities of the province by the order of the Attorney-General.

As a K.C. among the barristers of the province, His Worship, accordingly, will in future wear the designation of this rank when presiding in court.

PROHIBITION WORKERS MEET B.C. CABINET

A delegation representing the movement favoring prohibition of the liquor traffic met members of the British Columbia Government Tuesday and requested that steps be taken to check newspaper advertising of liquor throughout the province, as a move in the direction of advancing the temperance cause.

The reception accorded the delegation by the Premier and Cabinet was reported to have been very cordial and the representations made will be considered later. The delegation, introduced by Rev. Dr. W. G. Wilson, included a number from Vancouver, supplemented by local workers in the prohibition body.

The delegates were Dr. Willard Brewing, president of the United Church Conference of British Columbia; Dr. Hugh Dobson, secretary of the department of evangelization and social service for Western Canada of the United Church; Dr. R. J. McIntyre, general secretary of the British Columbia Temperance League; Mrs. M. C. Wilkinson, secretary of the Victoria Temperance League; Mrs. George Guy, representing the Victoria Presbyterial of the United Church; Mrs. John Hall, representing the Provincial Women's Christian Temperance Union; Dr. A. S. Imrie, representing the Victoria Ministerial Association; Rev. Nelson Harkness, president of the Baptist Convention of British Columbia; Dr. J. B. Rowell, representing the Regular Baptists; Rev. Those in the school board contest for four two-year terms are Trustees John Wallace, Walter E. Staneland and Charles R. Bishop; Mrs. A. S. Christie, Frank G. Mulliner and W. Percy Marchant. The only candidate so far for a one-year term is Arthur C. Pike. Two seats are vacant.

Mayoralty papers were filed yesterday by Dr. Joseph Douglas Hunter, physician, 911 Linden Avenue. His name was proposed by William Hyslop and seconded by John Cochrane.

Two-year council papers were filed by William Hodgson Davies, manager, 610 Coventry Avenue, proposed by Kenneth C. Drury and seconded by J. H. Beatty; Harold Arnold Morley, civil engineer, 1130 View Street, proposed by A. J. Morley and seconded by David W. Burnett; Mrs. Alice Emily McGregor, widow, 1190 Camrose Crescent, proposed by John G. Simpson and seconded by Mrs. Agnes A. W. Bennett; Duncan Douglas McTavish, customs broker, 28 Douglas Street, proposed by Alderman W. T. Straith, M.P.P., and seconded by Robert H. Swinerton.

ENTERS CONTEST

In announcing his candidature for alderman, Captain Gadsden stated, if elected, he would do his best to further interests of the city and its citizens. He believed great good could be accomplished by co-operation of neighboring municipalities with the city in a united scheme based on a fair and equitable agreement leading to an ultimate Greater Victoria union. He was optimistic in regard to improved conditions throughout Canada and thought the city would receive its share, but in the meantime there was much that could be accomplished for the economic and social welfare of the community.

Mayor McGavin, City Council and school board candidates will speak at the City Temple on Monday evening. Dr. Hunter has invited candidates to join him at the Chamber of Commerce Auditorium the same evening. Both meetings will be broadcast.

"ECONOMIC INTERNATIONALISM"

Mr. Mackenzie King, the Prime Minister, regards the verdict in Victoria's by-election as an incentive to him to promote what he designates by the phrase "economic internationalism." With him, and in connection with his future trade policy, that is how the result of the election matters. His economic outlook, for the time being at least, is bound up with that of the United States. The internationalism he speaks of is confined to North America. What he says in commenting on the opinion expressed by the ballots in this constituency may only be interpreted as giving sanction to his wishes to sacrifice some of the advantages in the British markets enjoyed by Canada so as to assist the trade of the United States. He has been a severe critic of the British preferences given under the Ottawa Agreement. It may be taken for granted that some of these are to be annulled.

Mr. Mackenzie King's chief preoccupation is freer trade between Canada and the United States. That is why he purposes to negotiate a new reciprocity pact. He has been asked, presumably by President Roosevelt, what sacrifices Canada is prepared to make in the British and Empire markets so that greater trading privileges will be obtainable in those for the United States. There is no reason to believe that his answer was other than favorable. As a sop for what the Dominion will lose in trading advantages with other parts of the British Empire the promise has been made that under a new reciprocity treaty with the United States this country will be given certain privileges that she does not now enjoy.

The logical conclusion to be reached is that Mr. Mackenzie King is more favorable to this country trading in American than in British markets. Mr. King's predilections in this respect have received endorsement by the citizens of Greater Victoria. The issue, however, is not yet finally decided. It bears all the earmarks of being the one of major consideration at the next general election in the Dominion.

STOCK EXCHANGE PANICS

Nothing has happened to business in this country to explain recessions in stock exchange prices. Recessions were engineered in the United States, possibly for political purposes, and because of that tendency, reflected always in the Dominion, the stock exchanges here follow suit without rhyme or reason. Even in the United States the suspicion is that manipulation has been responsible for tumbling prices, which, in turn, have created fright among investors and gamblers, and the same fright has been communicated to those who dabble in stocks in this country. The alarm occasioned in the United States is reflected in attempts of the Administration, through the Securities and Exchange Commission, to see what may be done so that Wall Street will regulate its business in a more rigid way.

In the main, stock exchange advances and declines are regulated, or manipulated as the case may be, by professional traders. They can accelerate or extend a decline in prices by short selling. The difficulty, seemingly, in any scheme designed for control, will be to draw the line between the activities of professional traders and those of the investing or speculative public. It is the professional traders who appear at present to have control of exchange management. If this control were lessened it would not necessarily mean that the artificial fluctuation in prices would come to an end. What any element of control to right the conditions that now obtain will be unable to do is to remove the fear complex that obsesses investors and gamblers at intervals. The stock exchange is a highly nervous organization. Some untoward event in almost any part of the world creates something resembling panic, no matter how solid may be the conditions in the country where this fear is engendered. What the investing and gambling public want more than anything else are backbone, the long view and ability to profit by the lessons of the past. Mankind's failing, among others, is the lack of continuity of courageous purpose.

SYNTHETIC RUBBER

The recent announcement in Germany that next year the Reich expects to substitute one-third of its imports of crude rubber with a synthetic composition of its own manufacture, arouses interest in the imitation product, which is known as Buna. This substitute is made from coal and lime, and while it costs half as much again as rubber the excellence of the material has been proved beyond question, according to scientific reports. As compared with rubber, Buna wears longer and is more resistant to heat, wet, oil and chemicals, and for those reasons, in spite of its higher cost, it is believed that it may replace rubber in certain fields.

Buna is based on the discoveries of Professor Fritz Hofmann, who has spent many years experimenting on efficient artificial rubber. The material is produced by I. G. Farben, the German dye trust, which now dominates the entire field of chemical industry in the Reich. One special plant, located in the heart of the Central German coal fields, is producing. Another is to be in operation next year and others are planned. These factories are financed by a tax on imports of crude rubber, and next year their production is expected to amount to 27,000 tons. To date, military and post office branches have absorbed the output and one report is that the entire army need for automobile tires is being met from this source. In a test of 10,000 motor car tires, it was found that Buna gave 30 per cent more wear than rubber tires under similar conditions.

Buna is derived from coal and lime in four essential stages. The basic materials are converted to calcium carbide in an electric furnace and here the electricity required is one of the largest elements of expense in manufacture, 3,500 kilowatt hours being required for one ton of carbide. The next step is the simple one of converting the calcium carbide to acetylene, which, in turn, is converted to aldol by means of a catalytic agent. From aldol a further process produces butadiene, which gives a variety of technically useful materials according to the treatment. Butadiene may be produced from alcohol, but production from that source is less economical in Germany. The butadiene, by polymerization, produces Buna. In this process, whereby little molecules of a compound are made to build themselves up into big ones, a catalyst is used. This catalyst, in the German process, is sodium.

Buna, outside of Germany, is not regarded as a serious competitor of rubber. While there is a likelihood of further reduction in the cost of manufacture, it is not believed that it will be sufficient to make Buna an economic substitute for rubber, as long as there is a free market for rubber, except in certain uses where the qualities of Buna are specifically superior to those of rubber. Both in Great Britain and the United States, products with properties similar to those of Buna have been developed. These it is believed, will serve where rubber does not give complete satisfaction.

OVER-TAXATION

Mr. N. W. Rowell, chairman of the Royal Commission investigating financial relationships between the Provinces and the Dominion, says that "the average citizen is not so much concerned with how much each Government gets as he is concerned with the total of all taxes he must pay." This is true, and this is Canada's greatest material problem—the incubus placed on the country's progress by oppressive taxation. If the Royal Commission in question keeps this problem uppermost in its mind during its investigations and bases its findings on a whole-hearted desire to relieve the taxpayers it will find itself in harmony with public opinion. That its findings will be translated into action is another story, for the political desire to spend the people's money will be difficult to restrain. Most Governments in the Dominion, following the American example, are striving by increased expenditures to pull the people out of the era of depression by their bootstraps. If they had vision they would be pursuing the course of economy and hastening the day when substantial relief could be given to the drain on incomes. It is that course that would release money for investment in industrial enterprise where it could be spent in a business-like way.

Mr. R. E. Ansley, a Social Credit Member of the Alberta Legislature, in addressing a Peace River audience, said: "Some of you voted for work and wages because you thought that was the solution to the problem, but it was not. We don't want work and wages. What we want is purchasing power. If we had purchasing power we wouldn't need anything else. By doing a little bookkeeping properly we could live off the fat of the land. I don't want to work, and I'm sure you people don't." Comment would be a work of supererogation.

The students of St. Andrews University invited Mr. George Bernard Shaw to be their candidate for Rector. His reply was characteristic, to the effect that he is not enough of a nonentity for the job. The students, not to be outdone in superficiality of comment, replied that the choice was between him and Shirley Temple for their support.

SUNRISE

Across the sky a shaft of opal steals.
Against the mist pale shadows flit and form.
The thin night wanes into the coming day.
The frieze of sea and wooded slope grows warm.

Now steals a rosy streak athwart the sky;
Along the waves bright glints of fire run;
A hush—and then the heralds of the day
Unfurl the golden banners of the sun.

Note and Comment

By Sandham Graves

Every time I look at a Legislature, I despair; not indeed of the good people in it, but of the system which attempts to make laws setting out what people may do. You know, there are several millions of things people could do; and if man is going to wait until he has covered this field by separate statutes, he will wait a long time. It is far more simple to say shortly what people may not do. "Thou shalt not kill," "Thou shalt not steal," those are direct and purposeful, plain and understandable; they get somewhere. Contrast them with a section taken at random from the first Bill I laid my hands on this morning. It is, as I imagined, a may-do Bill; part of amendments to the Public Schools Act. Section 3 states in part: "It shall be the duty of the Council of Public Instruction and the Council is hereby empowered to prepare and authorize schedules of standard basic salaries for the computing of salary grants pursuant to the provisions of Section 19 for all teachers, nurses and dental surgeons employed regularly for purposes of the public schools of the Province, which schedules may vary for different districts, and, when considered expedient, to revise the schedules; and, for the purpose of fixing minimum salaries, to prepare and authorize, and, when considered expedient, to revise schedules of minimum salaries that shall be payable to all teachers, nurses and dental surgeons so employed." Now here is the point—it would be far more simple for the Bill to say that school boards must not set teachers' salaries; and that would be that. I am not arguing on the merits of the bill, but merely the method of approach. It would probably take 100 years to hand the Council of Public Instruction all civic rights at this rate, one bit at one time. It could be done in a single line, if it should be done at all.

I could cite a thousand other examples of the same thing, man's vain effort to tell his fellow man what he may do. In fact, we have progressed so far along that road that it is now assumption in common law that nobody, no organization, no city, no government and so on, may do anything at all, unless there is a statute expressly prescribing their right to do such a thing. That is only a mild exaggeration with respect to individuals, and plain gospel truth with regard to public bodies. In short, through centuries of time, we have taken the few fundamental laws of mankind, and run them up into thousands of diverse and complicated statutes, each setting out a little piece of what may be done. Providence said it all in ten short Commandments, and every one of them was a may-not Bill. Of course, I know the objection that is always offered in response to criticism of a may-do law; it is that society has become so complicated that it cannot be ruled in any other way. I suspect the reasoning at its base. If there is anything more long-winded, tortured and complicated than an ordinary modern provincial statute, I have yet to come across it. On that system has grown up a chain of special courts to interpret the law, to say, in short, just what the language of our statutes does mean. Higher courts in the land are devoted almost exclusively now to determining what is the law, as a result of parliamentary production of Bills into Statutes for centuries. Courts once determined equity and rights as between man and man, and still do so to a limited extent; but more and more their efforts are addressed to finding out what is the law at any particular moment, and in any particular land. You did not need a court of appeals to tell you what the Decalogue said. It was there in simple language; usable, too, if we ever had the mind to really apply it. That is why I, for one, am not impressed by each fresh statute that pops out of a legislature, any legislature. I know that if it is a may-do Bill it will gradually wear itself down into a patent absurdity; to be carried out one day on a repeal stretcher, pale, limp and lifeless, the ghost of another law that died.

Tutt-tutt, the ground is insupportable this morning. Let us go up in the air! Airplanes fly without pilots now, as no doubt you may have read. Great Britain has built a radio-controlled plane, the Queen Wasp, which takes off, climbs, circles and performs any reasonable manoeuvre without a single man on board. Its controls are worked from the ground by radio signals. United States air lines are experimenting with robot-pilots, to take over some of the routine duties of pilots in flight. On the warlike side, anti-aircraft shells match tracer bullets now, being visible in flight, and are trained from a gun that automatically follows a hostile plane by sound. Air squadrons are growing in size, in number, and range of machines; and massed flights of 500 top-notch machines could be staged by any one of half a dozen nations today, with 1,000 more machines in reserve. Winter flying is having its troubles around the world, with mountain tops still getting much in the way. Sooner or later we shall have to put radio beacons and aerial lighthouses on all mountain ranges; and so far as Canada is concerned we had perhaps better do it sooner than later. The trans-Canada air route crosses the most rugged mountain range in this part of the world. If you have an idle moment, take a map of the world and look at what your sons and daughters may one day do with airline distances! There are no roads in the sky; or to put it the right way around, the sky is all roads; roads on every level from 1,000 to 50,000 feet; roads to the north, the south, the east, the west; roads which need no upkeep, and which never grow into disrepair. It is the grand highway—the highway of tomorrow!

The "gimme" habit is contagious or infectious, or both. Anyway, it spreads. American Indians are now asking for $2,116,432,325 from their country for damages and dispossession by the paleface. They have taken their claims to court, too. The Sioux nation wants $882,500,000 alone; and that is real money.

Enigmatic Expression

Last time we called upon the kind lady who knocks the dirt out of the family sheets and pillow slips she told us it was far better to be fed up than have nothing to do and be hungry. We are still wondering what she meant . . . Ernest, of Little Saanich Mountain, paid one of his infrequent visits to the office on Tuesday. He informed us he was working on a scheme to dispense with Christmas cards, and incidentally make himself enough cash to pay for his "struggle buggy." Ernest outlined a brilliant plan to build and equip an automobile with apparatus to record a person's voice on small records. He thought it could be driven up to a person's house, and he or she might chirp a Christmas message into a microphone. The resulting records would then be sold at a handsome profit to be mailed to friends and relatives instead of Christmas cards. Since radio has replaced phonographs, few persons would be able to make use of the Christmas record messages, we told Ernest. He left for his mountain home in disgust. —G.B.

No Steam in It

We wonder how the forthcoming mayoralty contest will shape up with the recently-concluded Federal by-election as regards excitement. It looks very much as though the big wind has passed over our city, while the coming election, although promising to be an interesting affair, will be just a cooling zephyr.—W.I.F.

Glancing Over Sport

I picked Billy Buxton to administer the sleep-producing punch to a chap named Speedy Dado in the seventh round, but was only five rounds out. Buxton stopped the Filipino in the second, and, if it wasn't for the clang of the bell, Mr. Dado would have gone back to his dressing-room in the opening frame. Billy's injured mitt, his left hand, which kept him out of action for a long time, was the one which exploded on Dado's jaw so fast and so hard that it was curtains before the ringsiders really had a chance to enjoy themselves . . . Gordie Bell, ace right winger of the Saturday League, has switched allegiance to the Wednesday Football League, as hinted in this column a week or so ago. It's too bad the United has lost such a valuable player, but you can't blame Gordie, for, after all, he's looking after his own welfare . . . Such noted ball players as Joe Medwick, Billy Herman, Van Lingle Mungo, Mel Ott, Hal Schumacher and Gus Mancusco will be on the block when the trade winds start to gain momentum at the baseball meetings this month. Many other surprises are in store for the dyed-in-the-wool fans when the agenda is gone through . . . Victoria is mentioned as a probable starter in the Western International Baseball League next year. Well, I have my doubts, for once upon a time we were going to have an ice arena. —J. D.

School Ruggers Coming

Victoria will act as hosts to visiting schoolboy Rugby fifteens during the second annual School Rugby Week to be held here December 20, 21 and 22, at Macdonald Park. Sponsored by the British Columbia Rugby Union, parent body in the province, the event is certainly a step in the right direction. It brings into close contact athletes from educational institutions in different parts of British Columbia, and is in itself a schoolboy championship series, a series which grooms the younger players for future McKechnie Cup battles. Held at Vancouver last year, the event was an outstanding success. We feel, as we think every Rugby fan in the British Columbia feels, that the 1937 School Rugby Week here will be a success. It certainly will be if we all help, and, of course, everybody will help.—S.T.

The Strangest Quota

If Great Britain goes through with its present high quota on U.S. motion pictures, the industry will petition Congress to pass retaliatory measures directed particularly against the Motherland's big export of Scotch whisky to the United States . . . This startling and rather amusing news is contained in a Hollywood motion picture trade daily, and is of interest particularly since quota films are being made in Victoria . . . "The Hays office," this paper says, "is authority for the statement that the 'American motion picture industry is tired of being a punching ball of all nations, and will petition Congress to place a quota on Scotch whisky, requiring England to buy one pint of American rye for every quart of Scotch landed on these shores.'" It is a matter of comment that the 'great American public may not find itself in sympathy with its motion picture industry.—B.G.

CHAMPIONS AT CHICAGO NAMED

Canadians Win Heavily in Sheep Section—Oklahoma Steer Grand Champion

CHICAGO, Dec. 1 (AP).—Three farm land champions marched into the king row at the International Livestock Exposition yesterday climaxing four days of intensive judging.

The winners, representing two repetitions of 1936 triumphs, were Ashbourne Orange, a light-heavyweight purebred shorthorn steer from the Oklahoma A. and M. College, which won the world beef title. The same school showed G. Page, the 1936 grand champion. William H. Curry, of Tipton, Ind., who retained the corn kingship he won a year ago with an exhibit of ten ears of yellow dent.

"The Champ," appropriately named 300-pound Poland China Barrow, won the swine grand championship for Arnold Moore, twenty-year-old Union City, Okla., farmer.

Selection of the best among breeding animals was accelerated during the day and will reach a peak tomorrow.

CANADIAN WINNERS

Canadians are much interested in that division, for it was there they scored their successes today. They will be watching the sales of breeding animals, where top notchers come higher than even the highest fancy fat stock. Report around the amphitheatre were some private sales already had netted Dominion breeders some good prices, and more were in prospect.

H. Noel Gibson of Kamoka, Ont., showed the reserve champion breeding Shropshire ewe. In the same breed he showed the second-place pen of three ewe lambs, the first-place get of sire and the first-place flock.

In breeding Southdown sheep classes John D. Patterson, Richmond Hill, Ont., showed the reserve champion ewe; placed first on get of sire groups; first on group three ewe lambs, and first on ewe lambs.

HOME BUILDING PLAN POPULAR

British Columbia Is Leading Provinces on Per Capita Loan Basis

On a per capita loan basis, British Columbia has moved to first place in the list of provinces in connection with the Dominion home improvement plan, as at November 1, 1937.

This information was given Tuesday afternoon at a meeting of the directors of the Victoria Chamber of Commerce by James Parfitt, chairman of the building trades group, and was obtained by him from G. Hamilton Harman, chairman of the local finance committee of the plan.

The encouraging news was contained in bulletins dated October 29 and November 3, issued by Hon. C. A. Dunning, Federal Minister of Finance.

British Columbia, with 2,908 loans worth a total of $945,515.88, has a per capita standing of 1.44. This province is slightly ahead of Nova Scotia, which has 2,261 loans worth $714,710.46, and a per capita standing of 1.43. Other provinces are placed in the following per capita order: Ontario, 1.37; Alberta, 1.30; Prince Edward Island, 1.11; New Brunswick, 1.02; Manitoba, 1.02; Quebec, .73, and Saskatchewan, .30.

VICTORIA TO FORE

Home Improvement loans reported from Victoria, according to the latest available figures, number 188, with a total of $68,807.60. Taking the population of the last Dominion census, the foregoing would show this city to be on a per capita basis along with the larger cities of Canada, sharing sixth place with Winnipeg and Ottawa.

A special display in connection with the Home Improvement Plan is to be held in departmental and retail stores, and elsewhere, for the purpose of keeping it before the public. At these places, literature will be available which explains in detail how loans may be obtained for making alterations and improvements to property.

The display recently took place at the Hudson's Bay Company, through the courtesy of the management. Figures shown on a poster in connection with the display, pointed out that loans have been issued worth more than $11,0000,000, that 35,000 skilled men have been put back to work, that 75,000 men have been given extra employment, and that 85,000 homes have been modernized and improved under the terms of the plan.

The time used is Pacific standard for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. Where blanks occur in the table, the tide rises or falls continuously during two successive tidal periods without turning.

The height is in feet and tenths of a foot, measured from the average level of low water.

To find the depth of water on the sill of the new Esquimalt Drydock, add 30 feet to the height of water as shown above.

FIFTY YEARS AGO TODAY

From The Daily Colonist of December 2, 1887:

New Uniform.—The helmets to be worn with the new police uniform arrived yesterday. They are blue in color and similar to those worn by the Eastern Canadian and Glasgow police forces. Mr. Roberts, the tailor, is making the uniforms, which, it is said, will look well. Being of an iron-grey color and of very serviceable material.

Standard Time.—Yesterday the city and private clocks were set thirteen minutes and thirty-six seconds ahead, in accordance with the new time regulations and the trains on the E. & N. Railway left at 9.04 o'clock instead of at 8.30, as formerly. The new time, although not received with favor by some, has, nevertheless, been generally adopted, and all trouble about running steamers, etc., will now be at an end.

Gladstone Coming to U.S.A.—Charles A. Gillie of the American Exchange, London, is in Buffalo. In conversation with a reporter Gillie stated that his present visit to the United States was for the purpose of perfecting the necessary arrangements for a visit to the United States by Gladstone in April next. One thing that tended to bring this about was the fact that his physicians have long advised that an ocean voyage would be beneficial to his health, and as he has always cherished a desire to visit this country now that his dread of the ocean has been conquered he embraces the opportunity eagerly.

Hundreds of Aliens Held in Russia on Espionage Charges

Forty-Four Germans Exchanged for Crews of Two Soviet Ships—Many Others Still Under Arrest —Embassy "Not Satisfied"

MOSCOW, Dec. 1 (AP).—Diplomatic sources today disclosed forty-four German prisoners had been deported from Soviet Russia in virtual exchange for crews of two Soviet ships recently released in Spain. These sources said the German Embassy "was not satisfied," however, since approximately 500 Germans still are under arrest in the Soviet Union.

They were among the hundreds of aliens caught in the current drive against foreigners, most of them on spy and wrecking charges. Those Germans deported were released from Kiev and Krakov jails.

The exchange involved crews of the Soviet ships Kimsomol, sunk by Spanish insurgents, and Smidovich, seized in Spanish waters.

The Russian sailors were brought out of Spain on German vessels since Soviet ships were unable to reach Spanish ports controlled by the insurgents.

HUNDREDS ARE HELD

Hundreds of other foreigners were said to be caught in the Soviet dragnet. Diplomatic sources reported the anti-foreign drive started intensively after Joseph Stalin's anti-spy speech last March.

Since then more than 200 Austrians, seventy Czechoslovakians, and many Poles, Italians, Greeks, Chinese and Afghans have been imprisoned.

Few Americans remain, most having left Russia voluntarily, though many of the foreign colony have departed at request of the Secret Police. Two Russian employees of the American Embassy have been arrested, however.

to borrow for waterworks and sewerage systems. Cities, towns and municipalities will be given new rights to control posters and signs, and deal with defacement or destruction of trees, shrubs and plants.

Changes in the Municipalities Incorporation Act, introduced by Mr. Gray, make unpaid taxes in unorganized territories a first charge on civic debts after incorporation.

In a special bill for Prince Rupert, consolidation of tax arrears is extended between 1936 and 1945. In a special bill for Vernon, a board of commissioners may be set up to operate and control the Vernon Sports Arena and draw from civic funds any deficiencies to meet operating costs.

All bills were read a first time. The Victoria City refunding measure was not introduced.

Great Lakes Had Biggest Freight Year in History

TORONTO, Dec. 1 (CP).—Great Lakes navigation came to its deadline today with what was believed to be the greatest movement of freight in history.

Summer insurance rates expired last midnight when final figures for freight transported over the five lakes were expected to top by 500,000 tons the 138,574,441-ton record set in 1929. This was for the five major commodities, iron ore, bituminous coal, anthracite, stone and grain as reported by the Lake Superior Iron Ore Association.

Little Stories for Bedtime

Chatterer Is Made Fun Of

By THORNTON W. BURGESS

"Mr. Smarty caught at last," Sammy shrieked.

"Ha, ha, ha! Ho, ho, ho! Mr. Smarty caught at last!" Sammy Jay fairly shrieked with glee as he peered down from the top of an apple tree at Chatterer the Red Squirrel in the cage Farmer Brown's boy had made for him. Sammy was so relieved to thing that Chatterer was not dead, and he was so tickled to think that Chatterer, who always thought himself so smart, should be caught, that he just had to torment Chatterer by laughing at him and saying means things to him until Chatterer lost his temper and said things back quite in the old way. This tickled Sammy more than ever, for it sounded so exactly like Chatterer when he had been a free little imp of mischief in the Green Forest that Sammy felt sure that Chatterer had nothing the matter with him.

But he couldn't stop very long to make fun of poor Chatterer. In the first place, Farmer Brown's boy had put his head out of the barn door to see what all the fuss was about. In the second place, Sammy fairly ached all over to spread the news through the Green Forest and over the Green Meadows. You know he is a great gossip. And this was such unusual news! Sammy knew very well that no one would believe him. He knew that they just couldn't believe that smart Mr. Chatterer had really been caught. And no one did believe it.

"All right," Sammy would reply. "It doesn't make the least bit of difference in the world to me whether you believe it or not. You can go up to Farmer Brown's house and see him in prison yourself, just as I did."

So late that afternoon when all was quiet around the farmyard Chatterer saw something very familiar-looking behind the old stone wall, on the edge of the Old Orchard. It bobbed up and then dropped out of sight. Then it bobbed up again, only to drop out of sight just as quickly.

"It looks to me very much as if Peter Rabbit is over there and feeling very nervous," said Chatterer to himself, and then he called sharply, just as when he was free in the Green Forest. Right away Peter's head bobbed up for all the world like a jack-in-the-box, and this time it stayed up. Peter's eyes were round with surprise as he stared across at Chatterer's prison.

"Oh, it's true!" gasped Peter, as if it was as hard work to believe his own eyes as it was to believe Sammy Jay. "I must go right away and see what can be done to get Chatterer out of trouble." And then because it was broad daylight and he really didn't dare stay for another minute, Peter waved a good-bye to Chatterer and started for the Green Forest as fast as his long legs could take him.

A little later who should appear peeping over the stone wall but Reddy Fox. It seemed very bold of Reddy, but really it wasn't nearly as bold as it seemed. You see, Reddy knew that Farmer Brown's boy and Bowser the Hound were over in the Old Pasture and that he had nothing to fear. He grinned at Chatterer in the most provoking way.

"Smarty, smarty, Mr. Smarty
"Glad to see you looking hearty!
"Weather's fine, as you can see.
"Won't you take a walk with me?"

So said Reddy Fox, knowing all the time that Chatterer couldn't take a walk with anyone. At first Chatterer scolded and called Reddy all the bad names he could think of, but after a little while he didn't feel so much like scolding. In fact, he didn't half hear the mean things Reddy Fox said to him. You see, it was coming over him more and more that nothing could take the place of freedom. He had a comfortable home, plenty to eat, and was safe from every harm, but he was a prisoner, and having these visitors made him realize it more than ever. Something very like tears filled his eyes and he crept into his hollow stump, where he couldn't see or be seen.

Local Factory Makes Progress

Utilitoys, Ltd., Reports Orders Rolling in for Manufactured Products

Utilitoys, Ltd., Victoria's new wood and metalcraft industry, located at 851-853 Fisgard Street, is a busy scene as the firm works on the rush orders which have been pouring into the plant during the past two months. Shipments are going out steadily to local, Vancouver and Up-Island points. The main lines of manufacture here are built-in fixtures, household utilities, cabinets, toys and novelties. A prominent feature is the line of streamlined wagons, coming in four sizes, exceptionally well balanced, smart and well finished. These have been given a splendid reception by merchants all over the country.

Modern equipment for all lines of metal stamping, and the production of woodenware and toys, is found at the new factory. This will doubtless form a welcome source for local and Up-Island merchants to replenish their stocks as the Christmas season advances. Orders, however, should be placed well in advance, as the management states that stocks of popular lines are being rapidly depleted.

Drivers' Strike In U.S. Ended

CLEVELAND, Dec. 1 (AP).—The sixteen-state strike of Greyhound bus drivers was settled tonight with the companies granting wage increases of one-fourth cent a mile for all drivers, but refusing the Brotherhood of Railroad Trainmen's demand for a closed shop.

There were scattered instances of violence during the strike. Missles were thrown at buses in several localities and non-striking drivers reported that three buses were fired upon in the Pennsylvania mountains yesterday.

NOTED FINNISH FLYER DROWNED IN LANDING

STOCKHOLM, Dec. 1 (AP).—The Finnish pilot, Gunnar Lihr, one of the heroes of the expedition which rescued survivors of the Nobile Polar flight in 1928, drowned tonight when he made a forced landing in a thick snowfall.

Lihr put his mail plane down on a lake thinly covered with ice, apparently mistaking it for a field. The ice broke and Lihr and his radio operator drowned.

NOT IN FAVOR OF AMENDMENTS

City Council Claims No Increase in Hospitals Cost Can Be Paid

Amendments to the Hospitals Act introduced by Hon. Dr. G. M. Weir for first reading in the Legislature, on Monday, are not favored by the City Council.

At a special meeting on November 13, the council took the position that the city could not possibly afford to pay any increase in its already unduly heavy costs for hospitalization.

A report of the meeting stated: "Any increase in respect of Victoria patients should be absorbed by provincial authorities . . . Under no circumstance would Victoria's legal obligation of 70 cents per patient per day be increased."

The council favored a proposal that municipalities which did not have to pay per capita charges in respect of hospital debt should be charged a per diem rate of $1.20 per patient for hospital services.

TO BE ELIMINATED

Hospital Act amendments call for elimination of the so-called "emergency clause." Under that clause, a municipality is only obligated to make per diem payments for its own residents in hospital to a hospital to which it is the chief contributor, apart from the Government, except in special cases. A special agreement clause would also be taken out. Under that clause, a municipality may pay a lump sum to a particular hospital in lieu of a payment of 70 cents per day for each of its residents who obtain treatment in that hospital.

Alderman John A. Worthington, newly-appointed chairman of the City Council health committee, stated that he had not yet discussed with his committee and the city comptroller the possibility of hospitalization costing the city more next year through the proposed amendments.

He referred to one of the amendments which set forth: "A municipality within which there are situate two or more hospitals receiving aid shall not be liable to make payments to more than one of those hospitals." It was his opinion that the clause might offset any additional expense which could be incurred by the city through hospitalization changes.

ARE YOU ONLY A THREE-QUARTER WIFE?

THERE are certain things a woman has to put up with and be a good sport.

Men, because they are men, can never understand a three-quarter wife—a wife who is all love and kindness three weeks in a month and a hell cat the rest of the time.

No matter how your back aches—no matter how loudly your nerves scream—don't take it out on your husband.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life. 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."

CUT OUT THESE RECIPES AND KEEP THEM SAFELY

Robt. G. Jackson, M.D.

Christmas recipes you will want to keep always. Why? Because they do away with "pasty", hard-to-digest ingredients—are healthful instead of harmful. They will not be clogging masses of indigestibility, but granular and porous to the digestive fluids which will quickly mix with them and quickly digest them. Delicious? Follow these recipes just once, and only these will ever interest you again!

CHRISTMAS CAKE

½ lb. raisins, stoned
½ lb. currants
½ lb. pitted dates, chopped coarse
½ lb. cherries
½ lb. almonds, halved
½ lb. peel, chopped or slivered
2 teaspoons baking soda
2 cups Roman Meal
4 eggs
2 cups pastry flour
1 teaspoon cinnamon
1 teaspoon allspice
½ teaspoon grated nutmeg
2 tablespoons molasses
2½ cups brown sugar
1 pint rich sour cream
1 teaspoon (scant) salt.

Prepare fruits, add nuts, peel. Soak Roman Meal in half pint of sour cream for about 2 hours. Cream sugar, molasses and eggs and add this to mixture after adding Roman Meal. Sift flour and spices and add to mixture—add balance of sour cream in which soda has been dissolved. Mix well and bake in slow oven for 2½ hours. This makes a delicious 6-lb. cake without using butter.

CHRISTMAS PUDDING

½ lb. raisins
½ lb. currants
½ lb. dates
½ lb. almonds
½ lb. peel
½ lb. cherries
1 lb. brown sugar
4 eggs
1 cup grated raw potato
1 cup grated raw carrot
½ lb. chopped suet
4 cups Roman Meal
1 teaspoon allspice
1 teaspoon cinnamon
½ grated nutmeg.

Put fruit, nuts, carrot, potato into basin, dredge well with 1 cup Roman Meal. Mix chopped suet with 3 cups Roman Meal and add to fruit, etc. Cream sugar and eggs together and add this to mixture. Butter pudding bowl and pack to within one inch of top. Cover with waxed paper and tie cloth over bowl. Put in hot steamer and steam for about 4 hours. This recipe does not require baking soda or baking powder although a little of either may be added if desired.

MEAT & POULTRY DRESSINGS

1½ cups Roman Meal
2 teaspoons salt
½ teaspoon pepper
1 teaspoon sage or other preferred seasoning
2 tablespoons melted butter
4 tablespoons onion, chopped fine
1 egg
1½ cups milk.

Soak Roman Meal with one cup milk for a few hours, or overnight. Break egg in measuring cup and add ½ cup milk. Mix other ingredients, then stir in milk and egg. The granules of Roman Meal will absorb the moisture during cooking and when ready the dressing will be just nicely moist. The quantities given are for a 5-lb. fowl—for larger fowl increase the quantities proportionately. The quantity of seasoning may be increased or reduced to suit individual taste.

Register of Shipping Tells of Betterment In World Conditions

Lloyds' Annual Publication Rejoices in Bright Outlook for Growing Mercantile Marine Fleets Throughout the World

Wherever shipping interests are represented, "Lloyd's Register of Shipping" is read. That means it is widely distributed, and justly so, for nearly half the total of the world's vessels carry its symbol, A 1, which means that the society's surveyors have checked the vessels thoroughly and found everything in connection with them first-class.

The "annual report" for the year July 1, 1936 to June 30, 1937, recently issued, shows 31,000,000 tons of shipping classified under Lloyd's specifications, which figure exceeds the combined tonnage classed with all other classification societies throughout the world.

The world tonnage of shipping as at July 1, 1937, according to the report, stood at 66,286,024 tons. The British flag total was 20,629,508 tons, or 31.1 per cent. The United States mercantile marine came next with 12,429,613 tons, or 18.8 per cent. In 1886 more than one-half the world's registered tonnage belonged to Great Britain.

BUILT LAST YEAR

According to the "annual;" a total of 484 ships, totaling 1,355,680 tons, were built to Lloyd's classification last year, or 60 per cent of world tonnage completed for the twelve months, while plans were approved during the same period for 654 vessels, of 2,216,295 tons gross, a substantial increase over the previous period.

Of the tonnage approved during 1936-37, 354 ships of 1,154,275 tons (more than 52 per cent), are building in British yards, and 300 vessels, of 1,062,020 tons, are building abroad. At the end of June, 1937, there were 373 vessels of 1,751,231 tons gross under Lloyd's classification being constructed throughout the world. Of this total tonnage, 1,052,606 tons were being built in Great Britain and Ireland and 698,625 tons abroad.

Since July 1, 1936, the report states, more than 995,000 tons of shipping have been broken up or sold for scrapping, and 482,000 tons lost through casualties or stress of weather, the total diminution being nearly 1,476,000 tons.

OUTLOOK BRIGHT

The shipping outlook is bright, the publication continues. Freights which for a long time remained unremunerative to the shipowner have risen sharply during the past twelve months. This has naturally resulted in a corresponding increase in the value of vessels, many of which, after having been laid up for some time, have been recommissioned and put into service.

Lloyd's Society employs a staff of 500 surveyors stationed at principal ports in the British Isles and abroad. These surveyors have a reputation for high efficiency and integrity. Their work consists mainly of surveying, for classification purposes, ships and machinery, and in testing material for such vessels. To undertake this latter duty the society maintains surveyors in all principal steel works in Great Britain and foreign countries.

Pitchford, and asked to reconsider his decision to withdraw at the end of the year as representative for Ward Three. In view of the fact that a considerable amount of important business will be decided during 1938 by the municipal council, Councillor Lambrick will stand for election again.

Civic Matters—The City Council public works executive and special salary committee conferred yesterday afternoon with R. Betts, representing Civic Employees' Protective Association, over a new working agreement for outside city employees. Matters discussed included sick leave, hours and working conditions. No decision was reached on any of the points covered. Alderman Edward Williams presided.

Dismissed Case—In the Provincial Police Court yesterday, Stipendiary Magistrate H. C. Hall dismissed the charge laid against Anthony Kohout the previous week. The magistrate found that the act was not, in his opinion, intended to cover such a case as that on which the defendant was charged and that he was not obliged to take out a licence as claimed to carry on business at Sooke.

Liberal Caucus Held — Liberal members of the Legislature were in caucus last evening for several hours, with labor relations, coal and gasoline control, and possibly other issues under discussion. Hon. G. S. Pearson left the caucus to receive a delegation of the Victoria Trades and Labor Council, urging action on labor relations at this session. The House will resume at 2:30 p.m. today for one period.

Indian Jollification—Five Indians were before Stipendiary Magistrate H. C. Hall yesterday charged with being drunk on an Indian reserve. On the request being made to divulge where the liquor was obtained, accused were all unable to tell of its origin. None of them knew the person from whom the liquor was secured. Several of the Indians belonged to the Songhees Reserve, while the others were visitors there.

Committee to Meet—The Royal Commission on Canadian Finance committee of the Victoria Chamber of Commerce will meet in the Arcade Building, Friday afternoon at 3 o'clock, Captain Norman Foster, assistant secretary, announced yesterday. Members of the committee are: David Leeming, chairman; James Forman, Kenneth C. Drury, F. C. Holden, A. C. Burdick, Duncan MacBride, C. W. Pangman, L. F. Osborne, R. W. Mayhew, M.P.-elect; E. W. McMullen and Major H. Cuthbert Holmes.

Campaign Costs Low—In connection with the recently completed Community Chest campaign, which resulted in $85,711.96 being collected, the campaign manager, Frank Paulding, points out that the cost (2.2 per cent) is possibly the lowest ever experienced in connection with a drive of the kind in North America. R. H. B. Ker stated yesterday that the most successful previous campaigns in the city had cost from 10 to 20 per cent. As a big proportion of the pledged moneys came in the form of cash, it was hoped that the interest accruing would help to reduce operating charges still further.

News reels may be taken in Victoria in the morning and shown at local theatres in the afternoon, directors of the Victoria Chamber of Commerce were informed at a meeting, held Tuesday afternoon.

A report from Kenneth J. Bishop, president of Central Films, Ltd., read by George I. Warren, secretary, drew attention to the fact that the new developer, one of he most modern of its kind, now in operation at the Willows Studio, could develop and dry a film within four minutes of placing it in the machine.

"This is encouraging news, indeed," commented Harold Husband, president.

The report submitted by Mr. Bishop also drew attention to the fact that "Fury and the Woman," produced locally, will be shown at the Oak Bay Theatre later this week.

Anglican Young People

ST. JOHN'S

Mr. James Forrester, of the Inter-Varsity Christian Fellowship for British Columbia and Alberta, was guest speaker at St. John's Society meeting. Mr. Forrester spoke of the need of an established movement of Christianity particularly in the schools. It was further pointed out that many Christians treated their belief as an actor depicting a part, as a superficial thing, not coming from within. As a closing challenge, the speaker presented the four basic words of Christianity, valor, loyalty, courtesy and great-heartedness. Mr. W. Sawyer, president of the Inter-School Union of the Fellowship in Victoria, spoke a few words. An interesting discussion followed. Sincere thanks were extended the speakers. A short business session of the A.Y.P.A. was held, being opened with prayers by the president. Definite steps were taken to assist the Northern British Columbia Mission. Members are reminded of the telephone socials now being held. The regular corporate Communion will be held on Sunday, followed by breakfast. Misses L. Tait, P. Simson, W. Perkins and Messrs. J. and J. Gentry were welcomed. An initiation will be held at the next meeting.

Pretty Wedding Takes Place at St. Matthias'

A pretty wedding was solemnized in St. Matthias' Church at 7:30 o'clock yesterday evening, when Ella Marguerite, youngest daughter of Mr. and Mrs. Thomas Geoffrey Smith, 336 Richmond Avenue, became the bride of Mr. John Dolphin Lund, youngest son of Mr. and Mrs. A. H. Lund, 1543 Elford Street. The ceremony was performed in a charming setting of white chrysanthemums and ferns. Rev. Alan Gardiner officiated at the service, and Mrs. Colin Cummins played the wedding marches, and as the register was being signed, played "Because."

The bride, who was given away by her father, wore a lovely gown of ivory satin with a long train, and long tapering sleeves, the bodice being finished with an Elizabethan collar of rose point lace. She also wore a family veil of rose point lace, confined to her head with clusters of orange blossoms in Juliet cap style, and this fell to the hem of her dress. She carried a shower bouquet of pink roses.

FOUR ATTENDANTS

The four attendants wore picturesque frocks of taffeta with high-waisted bodices and short puff sleeves and full skirts. The bride's sister, Mrs. Noel Robinson, was dressed in gold; Miss Barbara Bradford in Wallis blue, and the Misses Peggy and Mary Whyte in rose taffeta. They all wore Juliet caps of silver lace, silver lace mittens and carried Victorian bouquets of flowers.

The best man was Mr. Gordon Walsh, and escorting the guests to their pews, on which were nosegays tied with white satin and lace, were Messrs. Gordon Whiting, Wilfred Lund and Sam Johnson.

RECEPTION HELD

About forty guests were welcomed at their home by Mr. and Mrs. Smith after the ceremony. During the reception the bride and groom stood before the fireplace in the drawing-room, which was banked with white chrysanthemums, and later the guests passed through an archway hung with silver bells and flanked with baskets of chrysanthemums and ferns into the dining-room, where supper was served from a table centred by the bride's cake on a lace cloth, which stood between white tapers in silver holders.

Mrs. Smith was dressed in wine velvet, with a black hat and veil, and wore a corsage bouquet of pink roses and gardenias, and a gown of black velvet with accessories to match, and a corsage bouquet of cream roses and gardenias was worn by the bridegroom's mother.

After a honeymoon trip to Seattle, for which the bride left in a navy blue tailored suit and overcoat with a deep collar of grey Persian lamb and black accessories, Mr. and Mrs. Lund will make their home on Richmond Avenue.

Free Church of England Annual Bazaar Success

The Ladies' Aid of the Church of Our Lord, Free Church of England, held a successful bazaar yesterday afternoon in the Cridge Memorial Hall. Bronze chrysanthemums added to the attractiveness of the hall and stalls. Miss H. Newberry was the general convener and was assisted in receiving the guests by Rev. A. deB. Owen.

In charge of the stalls were: Fancywork, Miss Cowper Newberry and Mrs. Zimmerman; home cooking, Mrs. Lupton and Mrs. Hornsby; novelties, Mrs. S. Martin and Miss M. Hutchings; plain work, Mrs. E. Cridge and Miss Lloyd; fish pond, Miss Margaret Hughes; candy, the Misses Murray.

Tea tickets were in charge of Mrs. G. Turner, and convener of the afternoon tea was Mrs. Monahan, who was assisted by Mrs. A. Tobin, Mrs. Hughes, Mrs. A. Heddle and Mrs. A. Norris. Members of the Young People's Society assisted in serving. Mrs. Rawlings won the Christmas cake. The Ladies' Aid thanked all who assisted in making the affair so successful.

Strachan and the late Mr. S. M. Strachan, to Mr. George L. Darimont, only son of Mr. and Mrs. F. J. Darimont. The evening was spent in music and dancing. Those present included Captain and Mrs. H. Rebbitt, Mr. and Mrs. Peter Cunningham, Mr. and Mrs. Bert Mottershead, Mr. and Mrs. Watts, Mrs. M. Glover, Mrs. Stone, Mrs. E. Strachan, Major R. Ely, Miss Betty Strachan and Mr. George Darimont.

Entertains for Visitors

Mrs. J. W. Benning, Rockland Avenue, entertained at a dinner party on Monday evening in compliment to her guests, Sir William Hornell, who is on his way to England, and Mrs. W. G. Colquhoun. Mrs. Colquhoun is leaving this afternoon to join her husband, Colonel Colquhoun, P.P.C.L.I., in Winnipeg, and Sir William will proceed tonight to Montreal, where he will visit for a few days before sailing for England.

Miscellaneous Shower

Miss Ivy Ryles was hostess at a miscellaneous shower in honor of Miss Bernice Ferguson at the home of the latter's parents, Mr. and Mrs. F. J. Ferguson, 2751 Roseberry Avenue, last evening. A decorated doll carriage, which was used for the presents, was wheeled in by little Beverley Sweeny. Games were played and supper was served buffet style. The invited guests were Misses Barbara Harrison, Jean Stuart, Irna Wiberg, Margaret Briscoe, Thelma and Rose Tait, Ruth and Ellen Symes, Nancy Stevens, Elva Ferguson, Ivy Ryles, Beverley Sweeny, Mrs. C. Olmstead, Mrs. S. Sweeny and Mrs. A. J. Ferguson. Miss Bernice Ferguson will be a December bride.

Dance at Yacht Club

The Victoria Badminton Club held an enjoyable dance last night at the Royal Victoria Yacht Club, about 250 guests attending, these being members of the club and their friends. A five-piece orchestra played the dance music, and a buffet supper was served during the evening. The committee in charge included Miss Kathleen Forbes, Mr. Cecil Luckhart and Mr. Harry Bleasdale.

Entertains at Tea

Miss Marianne Fraser, Despard Avenue, entertained at a tea party yesterday afternoon in honor of Miss Calla Goldsmith. Mrs. Robin Raymond presided at the tea table.

Visiting in Vancouver

Mr. and Mrs. John Doyle, 1249 Rockland Avenue, are visiting in Vancouver for a few days.

TODAYS RECIPE

ALMOND Paste—One pound of blanched almonds, one pound of powdered sugar, one whole egg and the yolk of another, three drops of almond flavoring. Grind the nuts fine (or use already ground almonds). Beat the eggs slightly and gradually add some of the sugar. When fairly thick, stir in the nuts, adding a little sugar with each lot of nuts. Add the flavoring and mix thoroughly. It may require less sugar. Warm the cake in the oven and spread the paste smoothly, shaping it with the hand dipped in sugar. Allow to harden for two or three days before putting on the finishing icing.—Prudence.

Y.P.S. News

St. Aidan's

The regular meeting of St. Aidan's Tillicum Club was held Monday evening. Group Two, under the leadership of Gilbert Brown, took charge of the evening's entertainment. Book reviews were given. Barbara Dawson reviewed "North to the Orient," by Ann Morrow Lindbergh; Gilbert Brown reviewed "Lost Horizon," by James Hilton, and Cleo Westrum reviewed "Dreams in Your Heart," by Edna Jaques. Marjorie Griffiths and Cleo Westrum sang a duet, accompanied by Mrs. Griffiths. Bob Clarke moved a vote of thanks to those who participated in the evening's entertainment. After the meeting, the play, "Path Across the Hill," was rehearsed preparatory to its presentation on December 16 and 17.

Centennial

Centennial Society held its monthly social in the Sunday schoolroom on Tuesday evening. The group was divided up and given the name of well-known colleges, and then entered into competitive games, under the direction of Bill Deaville. The Yale team, captained by Ernie Hatch, was the winner. Refreshments were served by the social committee, under the supervision of Ivy Amos. Next week's meeting will be held in the church parlor, and Rev. John Bell, assistant minister of First United Church, will be the guest speaker.

United Church Council

The general council of the Young People's League of Greater Victoria and the Lower Island will meet on Wednesday evening, January 5, when a prominent speaker from the Provincial Parliament Buildings will give a special address.

Metropolitan

The regular meeting of the Metropolitan Young People's Society was held recently in the Sunday school hall. Declaring that this is a time of great need, Rev. A. E. Whitehouse delivered a challenging address to the young people. After a brief business period, impromptu speeches were given by Marion Plumb, Hugh Linnell, Mun Hope, Sidney Lee, Morton Gold and William Bowles in the church parlor. Games were played under the leadership of Bessie Middleton, Marguerita Anderegg, Audrey Nixon and I. Bowles. Music was played by George Davis, Gordon Bowker and Dave Shepherd. The meeting was brought to a close with the Fellowship circle and one verse of "Abide With Me." Next Monday the society will meet at the church from 6:15 to 7 p.m. before going to Duncan, where the members will be the guests of the Young People's League there. The young people's discussion group will be held on Sunday at 10 a.m. in the minister's vestry, as usual. Announcement was made of an especially interesting forum next Sunday, to which all young people are invited.

Interdenominational Chinese

A letter, appealing to Mrs. Anna E. Roosevelt to exert her influence to protect the lives of innocent Chinese women and children, was revealed at the recent meeting of the Interdenominational Chinese Young People's Forum, at the home of Rev. Leung Moi Fong. It was written by Dora Hope, thirteen-year-old Victoria High School student, and delivered privately during the recent visit of the presidential party here. A reply from the American consulate was later received, stating that the matter has been referred to the Secretary of State and that it would receive appropriate consideration. Miss Enid Cole, dramatic critic, gave an address on "World Peace." Miss M. Warnicker, teacher of voice culture, Vancouver, also spoke briefly and rendered a few selections. Miss Alice Gee was chairman. The treasurer's report was given by Miss Violet Lore. Rebecca Leung gave an encouraging report on the progress of newly-formed branches at Vancouver and Trail. Mr. Herbert Chan reported on the Chinese Youth Council. Mun Hope, associate-editor of The Montreal Students' Quarterly, announced that Lieutenant-Colonel F. W. L. Moore's article, "Peace on Pacific Waters," is nearing completion. A vote of sincere appreciation to Major L. Bullock-Webster, for his great interest in local Chinese dramatic work was passed. Brief speeches were delivered by Bessie Hope, Leslie Wong, J. Hope and William Chow. After retiring to the chapel of the Anglican Mission for a devotional period, conducted by Rev. Clarence Lee, the members returned to the Chinese Presbyterian Church, where Rev. Mr. Leung brought the evening to a close. On December 5 the executive has been invited to attend the fellowship tea in the First United Church parlors.

What Today Means

"SAGITTARIUS"

If December 2 is your birthday, the best hours for you on this date are from 10:15 p.m., to 12:15 p.m., from 2:15 to 4:15 p.m., and from 8:15 to 10:15 a.m. The danger periods are from 8:15 to 10:15 a.m., from 8:15 to 8:15 p.m., and from 10:15 p.m. until midnight.

Figments of the imagination will cause many a misconception regarding the attitude of friends and relatives. The average person may be on the defensive this day without justifiable reason. Be prepared to be tolerant, or better still, to ignore personal peculiarities in people you meet this day, socially or in a business way. A sense of self-importance will be responsible for a great many individuals assuming a decidedly domineering attitude, so it will be good judgment to turn a deaf ear to those who try to bluster or dictate. It might require a good deal of courage to stand up for a conviction you have, but it probably will pay you to do so. Taking the day as a whole, it should prove to be very auspicious for you, especially in any matter concerning money. Through a slip of the tongue secret plans or private personal affairs will become public property, so set a guard on yours. Married and engaged couples, as well as Romeos and Juliets, will perhaps find out that sentiment is something money cannot buy, and that it sometimes pays to be sentimental.

If a woman and December 2 is your birthday, you are probably very discreet, witty and self-reliant. Eager to acquire knowledge, a liberal education may qualify you to do well some work of great importance. As an artist, interior decorator, professional shopper, public stenographer, librarian, entertainer, or author you may attract a great deal of favorable public attention. Through marriage your dearest dreams may become realities.

The child born on December 2 must be taught not to do things in a haphazard fashion. It must learn to use its head. Upon graduating from high school or college a successful career is generally awaiting this youngster.

If a man and December 2 is your natal day, over confidence and a desire to get rich quick frequently prove to be the stumbling blocks in the path of success for those whose birth anniversary is celebrated this day. Through some line of technical work, acting, writing, or selling you may lay a firm foundation for a fortune.

SELMA REYES IS NEW ORCHESTRA CONDUCTOR

The orchestra of the Victoria Choral and Orchestral Union has been strengthened by the appointment of Miss Selma Reyes as leader. Miss Reyes has devoted much time this Winter to the string section, and the players have benefited by her advice and assistance. This appointment is a step in the union's attempt to attain perfection in the performance of the "Messiah."

Miss Reyes has appeared on the concert platform since the age of ten, and was principal soloist with orchestra at sixteen. She was a student at the Conservatoire de Bruxelles, Maitre Alfred Marchot, and for two years worked under Carl Flesch in Berlin. She has appeared in recitals and has broadcast in London, Australia, Canada, India and the United States.

DISCRIMINATION

Gentleman Visitor (to fiancee's little sister): "Your sister let me kiss her. Now, won't you let me kiss you?"

Little Sister (loftily): "No. I don't allow all the gentlemen to kiss me as sister does. There's a great difference in people, you know."

DRAMATIC SITUATION

The dramatic critic started to leave in the middle of the second act of the play.

"Don't go now," said the manager. "I promise there's a terrific kick in the next act."

"Fine," was the retort; "give it to the author."

At the Theatres

IRENE DUNNE IS IN COMEDY ROLE

Gifted Actress Again Turns to Humorous Part in Picture, "The Awful Truth"

Irene Dunne, who unceremoniously cut loose from a career of stately roles to indulge cinematically in wild whimsies and hysterical insanities in "Theodora Goes Wild," will again be seen in an all-comedy role in Columbia's "The Awful Truth," which opens today at the Capitol Theatre.

Cary Grant this time serves as Miss Dunne's screen cohort with such favorites in support as Ralph Bellamy, Cecil Cunningham, Alexander D'Arcy, Robert Allen, Joyce Compton and Esther Dale.

Leo McCarey directed "The Awful Truth," which Vina Delmar, author of "Bad Girl," adapted to the screen from the original stage play by Arthur Richman.

LOCAL PICTURE BEGINS TODAY

"Fury and the Woman" Starts Six-Day Run at Oak Bay—William Gargan Is Star

Opening today for a six-day run at the Oak Bay Theatre is "Fury and the Woman," a thrilling drama of the logging camps. Filmed within a few miles of Victoria by the Central Films, Ltd., this holds, in addition to the clever plot and gripping action of the realistic story, a special attraction to Victorians with famed beauty spots that are familiar to all appearing on the screen. One of the most modern logging camps of the Island forms the background.

Starring William Gargan and Molly Lamont, the cast has a total of over 300 Victorians. Many of the actors are well known here, such names appearing as Reginald Hincks and James McGrath. Commencing at 1 p.m. today, the film will be shown continuously each day.

On the same bill be the widely acclaimed picture, "Maechden in Uniform."

COLUMBIA OFFERS "OUR RELATIONS"

Laurel and Hardy Have Dual Roles In Feature Length Comedy Replete With Laughs

"Our Relations," opening today at the Columbia Theatre, presents the famous laugh - making team of Laurel and Hardy in a feature comedy rated surprisingly different, more elaborate and funnier than their many successes which have extended over the past ten years. For the first time portraying dual roles in a full-length feature, each a twin brother, Laurel and Hardy have double the opportunity to display their screen talents.

The highlight and most fantastic action of "Our Relations" transpires in the palatial pirate ship cafe. One hundred and fifty beautiful women, gorgeously gowned, and men in evening clothes participate in the most effective and elaborate scenes ever filmed for Laurel and Hardy. "Our Relations" is a Stan Laurel production.

FAMOUS DANCER HERE ON FRIDAY

Harald Kreutzberg to Give Diversified Programme at Royal Victoria Tomorrow

Harald Kreutzberg danced in the Berlin Beethovensaal for three evenings in December, 1936. All three performances were sold out and the same programme was presented each night. Of one of the evenings, Peter Sulm, noted European dance critic, stated: "As was expected, it was, of all the dance performances of the past year, the great evening."

With such a criticism as this from an art centre such as Berlin, Victoria may be assured of an evening of unusually brilliant entertainment when Kreutzberg appears in the Royal Victoria Theatre tomorrow evening.

The programme selected for Friday night is most diversified and embraces a wide field ranging from extreme humor to solemn drama with more than a touch of satire interspersed. It is such programmes as this that have earned Kreutzberg the reputation of being the most popular idol in Europe today.

From advance ticket sale reports, a large audience is anticipated.

The recital by Kreutzberg tomorrow will be the first of a series of greater artists to be presented in Victoria this season under the management of Hilker Attractions.

DOMINION THEATRE "Alcatraz Island," showing for the last times today at the Dominion, is more than a story of crime vs. law and order. It also carries a splendid human story of love—both romantic and parental—and of exciting adventure.

PLAZA THEATRE The entire action of Samuel Goldwyn's new film, "Dead End," now at the Plaza, which stars Sylvia Sidney, Humphrey Bogart and Joel McCrea, under William Wyler's direction, takes place within twenty-four hours and on one New York street.

DEANNA DURBIN ON ATLAS BILL

Youthful Singing Star Heads Cast Of "100 Men and a Girl," Starting Today

The girl who has the most unusual singing voice in motion pictures, Deanna Durbin, is the star of the Universal film, "100 Men and a Girl," a comedy drama with music, which opens at the Atlas Theatre today.

Deanna first charmed you when she sang over the radio. She delighted you with her memorable performance in "Three Smart Girls." Now she will capture you in her latest production. Featured with her in the offering is Leopold Stokowski, one of the world's foremost orchestra conductors.

The excellent cast includes Adolphe Menjou, Alice Brady, Eugene Pallette, Mischa Auer as a mad musician, Billy Gilbert and Jack Mulhall.

These two horses will probably not go to the post, so that there will be only nine runners in the race. Nine should be ample.

CHAPTER XLI

What did Robert really feel about it all, Syrie wondered. Or didn't he feel anything? She could not imagine that he would ever lose a night's sleep because he and she were caught in a net of their own making from which there seemed no way of escape. That he cared nothing for her except in a friendly way, she was convinced; that he was sorry for her—yes; she had to face that probability, even though it made her cheeks burn. He knew the hopelessness of her circumstances as well as she knew them herself; but she thought he might have shown more sympathy about that letter from the vicar's wife. Or was he glad that the opening had been offered to her?

Perhaps already he had made plans for his own escape from this—bondage—she could find no better word—and was not troubling about her future at all. And yet he was kind—in a hundred little ways she had proved his kindness and consideration.

He broke into her thoughts suddenly. "Well, here we are. Let's hope the old lady isn't in one of her cantankerous moods."

Miss Harwood received them almost graciously, though she said a little sharply to Syrie, "And where have you been all this time?"

"Just at the flat," Syrie answered. "I've hardly been anywhere."

The old lady said, "Humph—I suppose it never occurred to you to come with Robert when he visited me."

"I thought you'd rather have him by himself," Syrie said, to which the warrior replied that she and Robert had not such an overwhelming love for each other that they wished to be alone.

"I am beginning to think that marriage is taking its usual toll of your affection," she added.

"This is a nice flat," Syrie said, to change the conversation.

It's an abominable flat," Miss Harwood retorted. "I am not staying here. I have made up my mind to go to the sea for a week or two—there is no air in London. How can there be when it is made up of petrol fumes and smoke? You look as if a breath of wholesome air would do you good, too—so I invite you and Robert to come with me."

"That sounds good," he said in his lazy way. "When do you propose to go, and where, may I ask?"

"I go next week," Miss Harwood answered. "To Cornwall." She looked at Syrie. "You do not seem particularly overjoyed at the idea," she said pointedly.

Syrie roused herself with an effort. "I am; of course I am, and if Robert wishes to go—"

"Do you always do as Robert wishes?" the warrior enquired.

"She does—always," he answered for her.

The old lady said surprisingly: "Don't let him bully you, Syrie. I despise a henpecked man, but a bullying man is almost as bad. Stand up for yourself, if you wish to be happy." There was a short silence which she broke to say more agreeably: "I have not given you a wedding present, Robert, fetch me that little box from the mantelshelf—the blue one." She took it from him and put it into Syrie's reluctant hand.

"That is for you," she said. "They are real diamonds, so don't let Robert sell them if ever he gets hard-up."

Robert only laughed. Syrie opened the case and gave a little gasp.

"Oh, but I couldn't . . . Oh, it's much too good for me—oh, I couldn't think of taking such a present," she said in distress.

"Don't talk rubbish," Miss Harwood retorted briskly. "Put it on and let me see if it fits. Robert—you show her how it fastens."

Robert took the little bracelet from its case, and Syrie shyly offered her wrist. "It's much too good for me," she said again, and her lips trembled.

As Robert's fingers worked clumsily, Miss Harwood looked on, a queer little smile in her eyes. She said, "You had better save up and buy her a ring to match, Robert—I see she has no engagement ring."

It was Syrie who answered that they married so hurriedly they never thought about an engagement ring.

"Marry in haste, repent at leisure," the old lady said, and Syrie answered with spirit, "There's another proverb, 'Happy's the wooing that's not long a-doing.'"

"Good for you, Funny One," Robert said with a chuckle.

"So it's settled about Cornwall," Miss Harwood said later. "I will let you have all particulars later on." She seemed to take it quite for granted, and went on to say that she would travel down by train, and that doubtless they would prefer to drive down. Syrie made no further comment.

"Well?" Robert questioned as they drove away.

Syrie sat up stiffly. "It's not well—I think it's all dreadful," she answered. "I can't take this bracelet—it's—it's like stealing, and of course we're not going to Cornwall."

TRAVEL MADE HIM CONSTIPATED

Salesman Says Kruschen Keeps Him "On His Toes"

"I am a commercial traveller," writes a correspondent, "and due to endless traveling by train and automobile I find that I become constipated if I do not keep myself internally clean. Kruschen Salts is the only thing that will do this effectively and not interfere with my work. I take a large dose of Kruschen every Saturday night and on Sunday, when I have no work to do, the Salts act on me. On weekdays I take a small dose on rising. It is necessary that I be 'on my toes' all through the day, and this is the only way that it possibly can be done."—V.L.

Kruschen Salts is an excellent recipe for maintaining a condition of internal cleanliness. The numerous salts in Kruschen stimulate your internal organs to smooth, regular action. Your inside is thus kept clear of those impurities which, when allowed to accumulate, lower the whole tone of the system.

DELEGATES TO ATTEND PARLEY

Three Victoria College Students Will Go to Conference in Winnipeg

Three delegates from Victoria College will attend a conference of Canadian university students, which will be held in Winnipeg from December 27 to 31. They will be chosen by the faculty and the students' council.

The topics to be discussed are those facing every student today. Some of them are: "The Student and Education," "The Student and the Church," "The Student and Canada's Foreign Policy," "The Student and Campus Life," and "The Student and the Control of Society."

Several distinguished men are to be the leaders of this conference, namely, Walter Kotschnig, former world secretary of international student service, and the League of Nations commission on the status of intellectuals, and now professor of modern history at Smith College; Reinhold Niebuhr, who attracted world attention by his two books, "Moral Man and Immoral Society" and "Reflections on the End of an Era"; and Dean S. C. Carpenter, Exeter, England, one of the outstanding younger churchmen of England.

On Saturday afternoon, a tea will be held from 4 to 6 o'clock at Victoria College to help raise funds to send the delegates to the parley, which is being supported by the University Women's Club. A hearty invitation is extended to all members and their friends as well as to the parents and friends of the college students.

SHIP DAMAGED IN HEAVY FOG

German Liner Collided With Japanese Freighter in Columbia River

SEATTLE, Dec. 1 (AP).—The Hamburg-American liner Portland collided with the Japanese steamship West Munham Maru in the Columbia River early today and was slightly damaged, a radio message from the Portland, picked up here by the coast guard, said.

The collision occurred at 3 a.m. in heavy fog while the West Munham Maru was at anchor, the message said.

The Portland, with passengers and freight, was bound from Seattle for Europe, and the West Munham Maru was en route from New Orleans to Japan for scrapping, by way of the Columbia River.

Both ships were understood here to be bound down river from Portland when the collision occurred.

SUPREME COURT DECREE UPHELD

Captain of Gypsum Queen Loses Out in Ontario Appeal Tribunal

TORONTO, Dec. 1 (C.P.).—Appeal of Captain Freeman Hatfield against his conviction of fraud in connection with reparations paid for the loss of the schooner Gypsum Queen in the Irish Sea during the Great War was dismissed in Ontario Court of Appeal today.

The Court of Appeal upheld a decision of the Supreme Court in Ottawa, which found the Parrsboro, N.S., skipper guilty of fraud for receiving $72,276 war reparations after the Gypsum Queen sank during the war.

Hatfield claimed the vessel was torpedoed, but the court found it sank during a storm.

VANCOUVER SHIPPING

VANCOUVER, Dec. 1 (C.P.).—Announcement was made here today by Harold Brown, president of the Union Steamship Company of British Columbia, Ltd., of the appointment of M. J. K. Allen as vice-president of the company and its affiliates, Union Steamships, Ltd., and Union Estates, Ltd.

Mr. Allen, who has been a leading figure in the shipping and export business of Vancouver, took an active part in the recent purchase of the Union Steamship Company from its former British owners.

Five new ships have been chartered here during the past few days. Ss. Red Sea, Ss. North Leigh, Ms. Ettrickbank and Ss. Clearpool have been assigned to load in Vancouver this month for the United Kingdom, and the freighter Brynymoor has been assigned to load for South Africa.

Face Broke Out In Large, Red Pimples

Many an otherwise beautiful and attractive face; many a cheek and brow in the mould of beauty, have been sadly defaced, their attractiveness lost by the presence of skin eruptions.

Pimples are caused by the blood being in an impure condition, and are a source of embarrassment, and many of those so afflicted are ashamed to go out in company.

Burdock Blood Bitters drives out the impurities from the blood, and leaves the complexion clear, smooth and healthy.

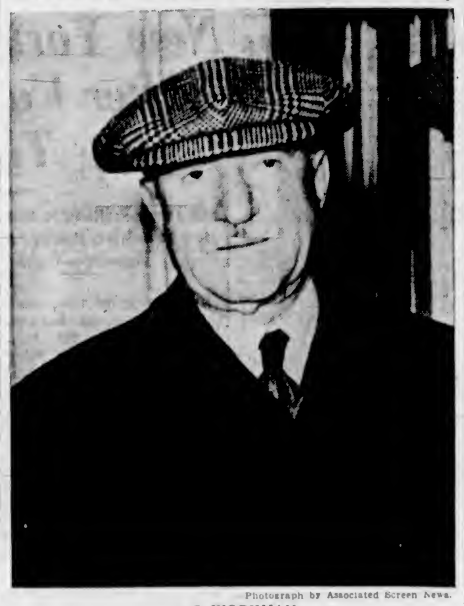

Miss Phyllis Twiddy, Ivanhoe, Ont., writes:—"Last spring my face and back began breaking out in large, red pimples.

It was very embarrassing for me to go out in company, and people began to avoid me.

I tried several kinds of blood purifiers, but none of them seemed to help me. I heard of Burdock Blood Bitters. I took three bottles, and my friends wondered where all the pimples had disappeared to."

SPENCERS AND HUDSON'S BAY SCORE SOCCER WINS

FORMER XI DEFEATS NAVY 5-0; BELL AND COLLINS DO SCORING

Spencers Turn In Best Exhibition of Season in Blanking League Leading Sailors—Lead at Interval by Three Goals—Bays Turn Back Gorge Hotel in Close Match, 2-1

HOW THEY STAND

	W.	L.	D.	Goals F.	Goals A.	Pt.
Navy	5	2	0	15	8	10
Spencers	4	3	0	19	13	8
Hudson's Bay	3	3	0	11	13	6
Gorge Hotel	2	5	0	10	21	4

Yesterday's scores:
Spencers 5, Navy 0.
Hudson's Bay 2, Gorge Hotel 1.

Navy soccer eleven clung to their slim two-point lead in the Hayward Cup today, happy in the thought that their five successive triumphs in earlier matches enabled them to retain the coveted top slot despite two setbacks. Sailors tasted their first defeat last week at the hands of the Gorge Hotel, 3-1, and yesterday at the Royal Athletic Park were blanked by Spencers, 5-0. The outcome left the Diamond "S" boys just two points behind in the trophy race and definitely established them as contenders for the silverware.

GORDIE BELL

Hudson's Bay stayed in the running for the trophy with a 2-1 victory over the Gorge Hotel at Beacon Hill Park. After a scoreless first half, the Bays set up a 2-0 lead in the second canto, before the hotelmen averted a shutout in the dying stages of the match.

SMART FOOTBALL

Football fans who journeyed to the enclosure to watch the sailors battle Spencers witnessed one of the best midweek matches played in Victoria in recent years. Despite a five-goal difference at the finish, the Navy fought hard during the ninety minutes, but they ran into an impregnable departmental defence. Spencers' two backs and their intermediate line fought a winning battle all afternoon and, as a result, the opposing front line was bottled up from beginning to end.

Gordie Bell, former Victoria West and United winger, making his debut in the Wednesday League at inside right for Spencers, sparked the forwards to a great victory. Bell never wasted a pass all day and appears to be the piece of machinery needed to make Spencers' line click. Louis DeCosta Navy goalie, had no chance to save any of the shots which beat him. In the second half the sailors switched their line-up around in an attempt to find a winning combination, but in vain.

Twenty-four minutes after the opening whistle, Spencers scored their first goal. It came after both teams had raced up and down the field at a fast clip with play well divided. "Shorty" Collins tallied the opener when he beat DeCosta from Byatt's cross after Bissell had lobbed goalwards. The Navy were pressing hard when Spencers broke away for the first marked. Six minutes later Gordie Bell made it 2-0 when he found a loose ball and picked the corner through a mass of players. Shortly before the change-over, with Spencers now dominating, Bell fired home the third goal to the far corner, making it 3-0 at the rest interval.

COLLINS SCORES

As the second half opened, Dovey went on at fullback and Cockrill went to right wing for the Navy. Walker went off. After Eddie DeCosta had missed a glorious chance right in front of the Spencer net, "Shorty" Collins widened the gap when he took Byatt's cross and beat the Navy tender with a fast drive.

Shortly after, Lloyd Cann, who turned in a fine game for Spencers, went off through injuries. After receiving first aid, he came back on and was just as good as ever. The sailors continued trying hard to avert a whitewashing, but a stubborn defence never gave them a chance. Spencers scored their final goal when Gordie Bell smashed in a terrific shot, which De Costa dived across the net to save, but Collins, racing in fast, smacked home the rebound for third counter of the match.

Shrimpton refereed; and teams follow:

Spencers—Stewardson, Cann, Bissell, L. Bradley, Raeside, Munro, Brown, Bell, Chapman, Collins and Byatt.

Navy—L. De Costa, Kennedy, Cockrill, Marr, Robinson, Gagnon, E. De Costa, Ross, Geddes, W. De Costa, Walker and Dovey.

BAYS BEAT HOTELMEN

Goals by Kennedy and Fogden in the last session enabled the Hudson's Bay to eke out a 2-1 victory over the Gorge Hotel at Beacon Hill Park. Fieldhouse averted a shutout when he picked the top corner of the goal in the dying seconds of the match.

Gorge Hotel won the toss and elected to kick against the slope in the scoreless initial stanza. They played their fest football in this half, and only hard luck robbed them of at least two goals. Bays, with many scoring chances, found it impossible to sneak a shot past Charlie Sadler, opposing net custodian.

Hudson's Bay played inspired football after the change-over and it was not many minutes before Les Kennedy, brilliant centre-half, sagged the hemp behind Sadler. Taking McDonald's cross from the right lane, Kennedy fired a first-timer at the hotelmen's citadel and scored. It was a good goal and gave the Bays a lead they never relinquished.

Gorge Hotel forwards were given a number of scoring opportunities, but appeared frightfully weak. Instead of shooting for goal, they literally tried to walk the ball into the net. Bays kept swinging the ball around and opening up the play and were having an edge in the exchanges. Late in the match, Fogden took a pass from Speller and scored the Boys' second and final tally.

In the dying minutes of the game, Len Fieldhouse's first-timer found the top corner of the goal. The final whistle sounded seconds later.

McMillan refereed, and the teams were:

Hudson's Bay—Renfrew, Wyatt, Preston, Williamson, Kennedy, Oakman, L. Gelling, McDonald, Fogden, M. McBride and Speller.

Gorge Hotel—C. Sadler, White, Geoghegan, W. Sadler, Fieldhouse, D. White, F. Stokes, D. Gent, Carr, Belford and K. Gent.

TACOMA CAGE TEAM BOOKED FOR SATURDAY

Wheeler Osgood to Oppose Dominoes This Week—Alpines December 11

Wheeler-Osgood basketballers from Tacoma, the squad which gave the Dominoes their greatest scare last season by dropping a 39-38 decision, has been officially booked to oppose the former Canadian senior champions Saturday night at the High School, Secretary Wilf Ritchie announced yesterday following telegraphic communication with Art McLarney, playing manager of the American quintette. The usual preliminary game will open the programme at 8 o'clock, and another large turnout is expected as only two games will be run off before the Dominoes take time out to enjoy the Yuletide season.

According to McLarney, the Tacoma team is much stronger than a year ago, which means that the Dominoes will have to be hitting on all cylinders to keep their season's record of victories. If the locals come through against the visitors, it will be their eighth straight triumph over United States aggregations since the schedule opened.

Plans are under way now to bring Alpine Dairy, Seattle's great basketball club, here on December 11 for a return game. Dominoes nosed out the dairymen some weeks ago by three points after establishing a big lead in the opening half. Ever since Manager "Chuck" Durgan has been clamoring for another tussle, as he figures that he can stop the winning streak of the Dominoes, that is, if Wheeler-Osgood don't do it this Saturday.

LIBERTY CAFE DEFEATS WEST ROAD CAGERS

Chalks Up 44-18 Triumph—Gainers' Superiors and Ramblers Win

Two one-sided games and a thrilling encounter in which the winners caged the deciding point in the last twenty seconds of play, were dished up to local basketball fans yesterday evening at the Victoria High School gymnasium.

Led on the attack by Bill Wallis, who really had an "on night," Manager Art Buller's Liberty Cafe hoopmen ran roughshod over West Road for a 44-18 triumph. The cafemen led, 29-5, at the rest interval.

Coach Axel Kinnear's Gainer's Superiors ran their winning streak to four straight when they trounced the Cardinals, 45-18, in the curtain-raiser. Superiors flashed their best form of the season and were always the better quintette. The eventual winners established an early lead and were on the long end of a 21-10 score at halftime.

Sonny Paterson brought the Ramblers through to a 25-24 victory over Wimpy's Crescents when he caged the deciding points in the last twenty seconds of the hectic struggle. Crescents, fighting hard to break their losing streak, went out in front three times during the fixture, once in the first half and twice in the final session. They were leading, 24-23, ninety seconds before the final gong and only just missed.

Van Druten topped the Ramblers' scoring brigade with ten points, while James was high man for the Crescents with ten points.

Wally Stipe and Bob Malcolm refereed, and the teams were:

West Road—R. Michell (5), B Michell (5), Young (4), Butler (3), A Gunn, B Gunn, McHattie and Cunningham. Total, 17.

Liberty Cafe—Sharpe (7), Gicas (8), Wallis (15), Noakes (3), Wight (4), Barbour, (5) and Turner (2). Total, 44.

New York Giants After Van Mungo; Big Trade in Air

Bill Terry Willing to Dispose of First String Players for Brooklyn Pitcher and First Baseman Buddy Hassett—Cubs Also After Mungo

MILWAUKEE, Dec. 1 (AP).—One of baseball's most famous "bad boys," the temperamental Van Lingle Mungo, of Brooklyn Dodgers, bobbed up today as the "monkey wrench," which held to a standstill the major league's buying and selling machinery.

As the minor leagues formally opened their convention, the name of Mungo, one of the greatest fast ball pitchers in the National League, suddenly highlighted a reported Dodgers-New York Giants' deal expected to touch off a burst of major league trading activity.

The Giants, according to rumor, are willing to give Hal Schumacher, pitcher; Gus Mancuso, catcher, and either Johnny McCarthy, first baseman, or Hank Leiber, outfielder, for Mungo and one other player, brilliant young Buddy Hassett, Dodger first sacker.

The Dodgers, with Mungo and Hassett their two best pieces of trading "ivory," also are reported to be asking a chunk of cash—the amount of which is holding up the transaction. Also after Mungo are Chicago Cubs, and the tip was out that Owner P. K. Wrigley was ready to loosen up the purse strings to get the big right-handed hurler, who squabbled constantly with Manager Burleigh Grimes last season.

AFTER ARKY VAUGHAN

It was learned a Chicago Cubs-Pittsburgh deal involving Shortstop Arky Vaughan had fallen through. The Pirates demanded either Bill Herman, ace second sacker or Frank Demaree, who virtually constituted the entire Cub outfield. Manager Charlie Grimm turned down the proposition.

Manager Jimmy Dykes, of Chicago White Sox, went into a huddle during the day with Pilot Mickey Cochrane, of Detroit, with Detroit reported on the verge of buying Merritt (Sugar) Cain, Sox pitcher. The White Sox, according to Manager Dykes, still are after Harland Clift, St. Louis Brown's infielder.

The first major league swap of the meeting was made as Washington traded right-handed pitcher Ed Linke to St. Louis Browns for Elon Hogsett, veteran southpaw. Linke won six and lost one for the Senators last season, while Hogsett won six and lost fifteen for the last place Browns.

New York Giants traded Outfielder Paul Carpenter and Infielder Otto Bluege to Los Angeles for Third Baseman Ken Richardson. Richardson played with Greenwood, Miss., of the Cotton States League; Bluege with Jersey City, and Carpenter with Moline Ox, the Three-Eye League, last season. Manager Bill Terry, of the Giants, said although he regarded Richardson as a fine prospect, he probably would use him at the Jersey City farm.

Sarnia Gridders Gain Three Places On Eastern Squad

Hugh Stirling, Ormond Beach and Mike Clawson Placed on Sixth Annual All-Star Team—Imperials to Face Argos on Saturday

By ELMER DULMAGE
Canadian Press Staff Writer

TORONTO, Dec. 1.—The two-cylinder O.R.F.U. and the little-recognized power packed into its two big games have come at last to win the spangles and strapping of all-stardom. On the sixth annual All-Eastern football team are three 200-pound Sarnia Imperials.

Only unbeaten team in the sector as they prepared to play Toronto Argonauts, Big Four champions, for the Eastern title here Saturday, the Imperials gained places on the first team for Hugh (Bummer) Stirling, Ormond Beach and Mike Clawson. The other nine positions were filled by Big Four players.

Selected for the Canadian Press by sports writers and coaches, the teams have a total membership of fourteen from the Big Four, seven from the O.R.F.U. and three from the Inter-Collegiate Union. While the Ontario Union has placed men on the team before, it never had a representation of three.

GIVEN MANY VOTES

Stirling, 207-pound kicking, plunging and passing back, was given twenty-two first-team ballots by the twenty-three selectors. The thirty-year-old Imperial star, greatest of Canadian punters, came closer to a perfect tally than any player considered. He was placed on the All-Eastern team a year ago by a much smaller vote.

Runner-up in the voting was the massive Beach, 235-pound giant from Kansas, who is Stirling's plunging partner and rates as the best defensive halfback in the East. In addition, he is a brilliant forward passer. Beach was given eighteen votes, far more than he needed to win a place on the 1935 team.

Third Sarnia selection, Clawson edged out Tommy Burns, of Montreal, for a middle wing position. Also from Kansas, Clawson weighs 208 pounds. Coach Art Massucci, of the Imperials, regards big Mike as the most effective defensive lineman in the country. He doesn't carry the ball.

Soccer Chatter

BY C. V. MILTON

The City broke the hearts of their supporters when, having established superiority over the Wests, they adopted wrong tactics, and allowed their opponents to add one more name to the list of their victims. Wests deserve all the honors of the season for the way in which they have treated us to pretty football, and, although City was not their easiest prey, it was easy enough before the end of the game. Young Okell is playing a nice game.

With Payne well up in the forward line, Joe Bloom's boys played just the sort of a game to beat the Wests, that is, in the first half. They went after goals and trusted the defence to take care of the other half of the field. Is it an inferiority complex that makes them so nervous of their back line in the second half? Or is it just plain bungling on somebody's part?

Payne stuck around, or was placed around, among the halves, never near enough to score. The attack was left to three forwards, and the centre man was useless, both for want of initiative and for lack of support. The Wests, on the other hand, West-like, when they found themselves on the wrong end of the score, and time getting short, seemed to shake themselves together, went after goals and, of course, got them.

I have my suspicions. I may be wrong, but it seemed to me that the City, as a team, were tired at the end of the game. Is it possible that they are not training faithfully? I can quite appreciate the difficulties a manager has to get the boys to train these days, when life is so full.

In our days a couple of training sessions per week provided a certain recreation for which we were grateful. It may be that today with so much to be crowded into a week, the boys find it almost impossible to spare a couple of evenings, even for the good of their team. So much the worse for the game.

Then, again, it may be too expensive a job to run regular training quarters. These clubs are far from wealthy, and gymnasium, hot water, lighting, heat and other incidentals may cost more than one of our local clubs can afford. I have not made any inquiries, but if this is the case, I might be pardoned for offering a suggestion.

If four clubs were to get together and have one massed gathering per week for training, the cost to each club is at once cut by 75 per cent. Moreover, this weekly get-together would be a godsend to the players socially. There is no secret about training, and no rivalry involved. A good trainer would want results, and therefore would be perfectly impartial.

The benefits of training do not need enumerating. But one of the most valuable lies in the fact that a well-trained athlete really enjoys a game, win or lose. And it must be admitted that a few of our players lately have shown by their loss of temper that they are not enjoying the game. Another benefit, to the fans this one, is that the play is keener, games are made thrilling, and the resultant increase in patronage makes it easier for the clubs to meet the extra cost of training.

It is quite possible that I am barking up the wrong tree but, although many individual players are keeping themselves in excellent shape, it is quite obvious that the teams as a whole are not going into regular systematic training. Pace is spasmodic, thrills are rare, and what should be a young man's game is degenerating into a leisurely, good-for-your-liver, style of amusement.

I apologize to the players for being so nasty to them, but before I take any back answers from them, I should like an honest answer from each player and from each team to the question "Are you really playing the best game that you are capable of playing at this period in the season?" All the same, I am not forgetting the fans' debt of gratitude to the players who provide us with the best form of entertainment suitable to a half holiday, but I believe they can do better.

Now let's get after somebody else's scalp. Here's a gent in Vancouver, who, having told us that the firing of our James Adam from the Dominion F.A. is preliminary to robbing Victoria of a game with the English team next Summer, now gives the news that the said team will play two games in British Columbia, and both of them, mark you, in Vancouver. Vancouver is not greedy, but she likes a lot.

It's up to Victoria managers, fans, and players to see that they get their share.

"Red" Martin Will Leave City Today To Join Davidans

Albert "Red" Martin with a fair crop of crimson whiskers already adorning his face, will leave on the Seattle boat this afternoon to join the House of David basketball team at La Crosse, Wisconsin. Martin will meet George Johnson, manager of the touring bewhiskered club and then will proceed to Iowa. He will workout for a week with his new teammates before the squad starts its four months' trip through Canada and the United States. Martin is a former member of the Blue Ribbons team, which won the Canadian championship and also played a season with the Dominoes.

Soccer Activities

A workout of the Victoria City football team will be held tomorrow night at the Veterans of France at 8 o'clock. All players are asked to turn up.

ENGLISH SIDE IN FINE WIN BY ODD GOAL

Scores 5-4 Victory Over Czechoslovakia in International Game

LONDON, Dec. 1 (CP).—Fielding practically the same team that defeated Wales, 2-1, two weeks ago, England scored a 5-4 victory over Czechoslovakia in an international football game played here today. The Englishmen led, 3-2, at half time.

More than 50,000 persons crowded Tottenham Hotspurs' ground at White Hart Lane to see England avenge its 2-1 defeat in Prague in 1934.

Riha, Czech forward, nearly tied the match in the closing minutes. Throughout the game the visiting vanguard displayed tricky combination, but was not quite good enough for the more experienced home team.

England was unfortunate in losing J. Morton, West Ham United winger who replaced E. F. Brook, Manchester City, on the team, through injury near the end of the first half. With a rearranged line-up, the home "ten" played extremely well in a hectic second period.

SCORES THREE GOALS

S. Matthews, Stoke City outside right, sent in three of England's goals, Morton and W. J. Crayston, Arsenal halfback, getting the others. Puc, Kloz, Zeman and Nejedly tallied for Czechoslovakia.

During the first half England's left wing, L. Goulden, West Ham United, and Morton displayed dazzling form. Had not the latter been hurt, it is likely the margin of victory would have been greater. The Czech raids were pretty to watch, but the forwards lacked sting in front of the goal.

THE TEAMS

England—Goal, Woodley (Chelsea); backs, Sproston (Leeds United), Barkas (Manchester City); halfbacks, Crayston (Arsenal), Cullis (Wolverhampton Wanderers), Copping (Arsenal); forwards, Matthews (Stoke City), Hall (Tottenham Hotspurs), Mills (Chelsea), Goulden, Morton (West Ham United).

Czechoslovakia — Goal, Panicka; backs, Kostalek, Daucik; halfbacks, Vodicka, Boucik, Kolsky; forwards, Riha, Kloz, Zeman, Nejedly, Puc.

JOHNSTON WILL MEET YOURIST

Matched in Semi-Windup of Saturday's Mat Show at Tillicum Gymnasium

Abe Yourist, Jewish wrestler, who hails from New York's East Side, will return to the ring at the Tillicum Gymnasium Saturday evening to appear in the semi-windup of the weekly mat features. Yourist was yesterday booked to match holds with Dave Johnston, 235-pound Chicago grappler, in the five-ten-minute-round match. Heading the all-star programme will be Hal Rumberg, Spokane, and La Verne Baxter, handsome Washingtonian, who will wrestle for eight ten-minute sessions. Rumberg has been here before, but Baxter will be making his first Victoria appearance.

ABE YOURIST

Local followers of the mat game have a liking for Yourist. They like his clean style of wrestling and his ability to give and take punishment. In his last match at the Tillicum Gymnasium he grappled to a rousing one-fall draw with Danny Dusek in one of the most entertaining bouts seen here for many a day.

With the top bout and the semi-windup set, the local promoter is looking for two good boys for the special event. The first match, a local preliminary, will open the show at 8:45 o'clock.

WHERE WERE HER MANNERS

There was a brave lass of Connecticut
Who signalled the train with her petticoat,
Which the papers defined
As presence of mind—
But deplorable absence of ecticut!

NO USE FOR IT

Tourist (in Ireland): But that spot is dangerous. They should put up a notice to that effect.

Pat: Sure an' we did have a notice there for the last ten years, but as no one ever fell over we took it down.

PHOENIX EXPORT LAGER • SILVER SPRING • BOHEMIAN

The Finest Beers Brewed in B.C.

IN Vancouver and up in the Interior of British Columbia there are thousands who ask for Silver Spring, Phoenix Export Lager or Bohemian whenever they call for a bottle of beer. With a choice of all the beers brewed in British Columbia, they prefer these Vancouver Island products. Why? Because Vancouver Island beers are produced in a brewery with a tradition of nearly 80 years' experience. This brewery knows the type of beer that most people prefer . . . a good, hearty hops-and-malt lager which has been aged for 90 days so that it has the heady sparkly of a vintage wine. You are always sure of a satisfying bottle of beer when you ask for either of these brands.

Buying Support Fails to Appear On Wall Street

NEW YORK, Dec. 1 (AP).—Leading shares backed away for losses of fractions to a point or more in the stock market today, with buying support limited.

At the same time, brokers said, offerings were not in volume and the session was slow rather than "thin." Steels and motors, affected by adverse trade news, were under most pressure. Gold mining issues were in some demand and finished higher. Utilities were largely inactive.

Belief Governmental aid to United States business may be a little slower in arriving than had been hoped for was a factor in the market's lassitude, it was asserted. The week's drop in steel operations chilled enthusiasm for this group, although Iron Age suggested the decline might be near its bottom.

The Associated Press average of sixty stocks dipped .7 of 1 point at 44.7. Transfers totaled 695,570 shares for the smallest full day's volume since October 4. Yesterday's turnover was 1,152,300 shares.

Federal loans generally advanced in the bond market today as domestic corporate liens churned idly in the lightest turnover in more than a month.

Many utilities and secondary carrier obligations eased while selected industrials pointed a little higher. The Associated Press average for twenty rails was unchanged at 72.1, while ten industrials dipped .1 of 1 point and ten utilities advanced .1 of 1 point to 92.5.

Foreign dollar issues worked higher. Italy 7's jumped 3 3-4 to 82 1-4, and most South American loans improved.

STOCKS WEAK IN MONTREAL MART

MONTREAL, Dec. 1 (CP).—The market dragged through the first December session today with prices pointing lower.

Early strength failed to hold and values sold off, led by Noranda's point-loss at 47 1-2. In quiet selling, Nickel dipped to 41 3-8, while Smelters improved 1-4 to 52 1-4.

St. Lawrence Paper preferred slipped 1 1-2 points to 51, while declines of 1-4 each came out for Price Brothers, Dryden and St. Lawrence Corporation.

Rail equipments and oils generally followed mixed trends.

C.P.R. worked 3-8 higher to 8 3-8. Shawinigan firmed 1-2 and Brazilian remained unchanged. Fractional losses appeared in Steel of Canada common and preferred. Dominion Bridge gained 3-4.

Oils again attracted buying on the curb market with Royalite up 1 1-2 points to 43 1-2. Home Oil, up to 1.33 at one time, finished 10 cents higher at 1.25.

WHEAT FUTURES ADVANCE BRISKLY

WINNIPEG, Dec. 1 (CP).—Revival of large-scale export demand for North American wheat and bullish Southern Hemisphere crop information brought buying power to the Winnipeg Grain Exchange today.

December wheat advanced the 5-cent limit, owing to scarcity of offerings, while other wheat positions showed gains of more than 3 cents. Profit-taking caused minor recessions with final quotations 4 1-8 to 2 cents higher; November at $1.14 1-4; May, $1.12 1-4 to $1.12 1-2, and July, $1.08 1-4.

Today's bull movement was the first since November 12, and temporarily, at least, ended the erratic market easiness of recent sessions.

United States wheat sales were reported at 1,500,000 bushels, two-thirds to Germany and the remainder to Mexico. The Canadian Pacific Coast and Atlantic exporters were said to have disposed of about 250,000 bushels of Canadian wheat. Unfavorable weather prevailed in Argentina and Australia.

Strength of outside markets was a constructive influence with Liverpool reversing earlier trends to close 1 3-4 to 1 5-8d higher; Buenos Aires, 1 1-2 to 1 5-8 cents higher near the close, and mid-session gains at Chicago of around 4 cents. Chicago, however, reacted to close 1 3-8 to 3 1-8 up.

Cash wheat prices were firm. Coarse grains closed: Oats, 3-4 to 1 higher; barley, 1 1-2 to 1; flax, unchanged, and rye, 3 to 1 5-8 higher.

OILS PUSH UP IN TORONTO MARKET

TORONTO, Dec. 1 (CP).—Traders turned to Western oils today and bought them in such volume that prices were pushed higher throughout the list. Action in the group accounted for more than half the day's share turnover and they caused a rise of more than half a point in the miscellaneous mines index, despite lower prices for the base metals.

Gold and industrial indices held gains of 1-2 to 3-4 on moderate volume of trading, Dome and Lakeshore led the yellow metal group with gains of 1 1-4 each.

Losses predominated in the base metals with Nickel off 3-8, Noranda 7-8, Ventures 15 cents and Falconbridge 10 cents. Silvers held steady.

Royalite gave the junior oils strong leadership by advancing 3 1-2 to 44 1-2. Gains of 13 to 27 were boarded for Calgary-Edmonton, Anglo-Canadian, Home, Okalta, Foothills, Vulcan and Southwest Petroleum and other issues up 3 to 5 cents were A.P. BUYS CLAIMS IN ZEBALLOS FIELD

Olympic Gold Mines, Limited, Acquires Lucky Group on Vancouver Island

Olympic Gold Mines, Limited, has acquired an 80 per cent interest in some carefully located ground from the original prospectors, who have been in the Zeballos area for some months. The property is known as the Lucky Group, and consists of six claims and lies about 4,200 feet south of the Gold Fields property, which has been under steady development by A. B. Trites for months past. W. H. Hind, the principal locator, has been prospecting the Zeballos area during the entire Summer.

To the south of the Lucky Group lies the Friend Group of claims, which is under option to the Pioneer Gold Mines, Limited, and their development work is reported from reliable sources to be showing some very favorable values.

A clearly defined sheer zone runs through the centre of the Lucky Group for three claims length, and where it has been uncovered quartz veins were exposed.

The contact between the volcanics and the diorite is found across the Lucky Group ground.

In 1933, the Hon. B. W. A. Gordon, Dominion Minister of Mines, said in a speech: "The two most promising mineral areas which had come to his department's notice as a result of the preceding year's geological surveys, were the Yellowknife in the Great Slave area, many hundreds of miles from transportation, and the West Coast of Vancouver Island," apparently referring to the report by Dr. Gunning, of the Geological Survey Branch, of his work in the season of 1932.

TRYING TO MAKE DOG UNPOPULAR

The secretary of the local anti-vivisection society told the directors, at a recent meeting, that all societies had received warning regarding an effort to make the dog unpopular, allegedly that it may be the more readily available for vivisection. An incredible number of dogs are vivisected annually on this continent, it was stated.

The Women's Guild of Empire, London, wrote relative to a petition presented to the Archbishop of Canterbury against the vivisecting of animals before students in Christian missions. This was signed by medical men, clergy, members of Parliament, professional persons and eminent people. Canadians having sent a number of signatures.

Attention was drawn to the shipments of monkeys for vivisection. A boat, recently calling at Halifax, had some 500 animals aboard. The societies intend to continue their agitation against this practice.

Letters of objection have been sent to editors of magazines and papers publishing pro-vivisectional articles. A report was read on the animal welfare work of the Pavilion Zoophilia erected at the Paris Exhibition, the promoters of the undertaking being supporters of the local anti-vivisection society. G. B. Kitto presided at the meeting.

ANSWER TO YESTERDAY'S PUZZLE

TIME OUT! - - - By Chet Smith

Yer Outta th' Game Fer Sluggin'!

LIFE'S LIKE THAT - By Fred Neher

"But If I'd Punched Him Back, Pop, It'd Been His Turn Again!"

Jane Dixon Says:

IT'S A JOY TO RECEIVE TODAY'S LETTER AFTER READING MORE ABOUT THE HAZARDS OF LIVING THAN THE HAPPINESS OF IT

When a woman finds her real mate she does not need wings with which to fly.

She floats through the air with the greatest of ease.

Woman, in the finest sense of the word, essentially is a home-maker. Give her an orange crate and a few yards of cretonne and she will turn out a nifty gadget for the beautification—useful, too—of the bedroom or maybe a neat cache for husband's shoes.

Dear Miss Dixon:

I'm not in trouble as so many are who write to you. In fact I am the happiest girl in the world. All I want is a few suggestions.

I am in my early twenties and expect to marry within the year. Meantime, I'm buying things for my hope chest—and is that fun!

Would you tell me the approximate number of tea towels, sheets, spreads, etc., I should have? I want to have oodles and oodles of each, but I'd rather not be wild on the subject.

So many of my friends have had showers, but I'm not depending on that. In fact, I don't want "showers." I'd appreciate the thought of course, but we plan to marry very quietly. We are saving our money to furnish a neat little nest, on the cash basis.

We've agreed I'll keep my job for a while after we marry and save my salary, live on his. We have our minds on a cosy cottage of our own.—Mildred.

Comment: Mildred, you are a joy to meet and a rock in a weary land to one who listens in on a lot more of the hazards of living than the happiness of it.

I'm not up on modern hope chests—only a few treasures remain from mine—but the replacements have been fun, too, so do not build too far into the future. Were I building your cosy nest, I'd buy a half-dozen of each, and fill in as needed. Not spreads, of course. Two of those would fill the bill nicely—something cool for Summer and a more formal and heavier one for Winter. And here's an idea—it took me a long time to learn it, but it is sound as the Rock of Gibraltar—never buy a cheap substitute for what you really want. Get along without, until you can afford the real thing. If you buy only one piece of furniture, one item of silver, one rug a year, let it be such a one as you will want to keep, indefinitely. One fine piece will mean more to you and to your home than all the makeshifts in creation.

I'm glad you are going to keep your job for a while. Modern young women, marrying modern young men who are just starting their way up, have a magnificent privilege. They can help drive the wagon instead of being a load of excess baggage in it.

(Copyright, 1937, by Bell Syndicate, Inc.)

"THERE'S MANY A SLIP—"

'Twas a mighty long slip—the first one; in fact, the cup has not yet reached the lip, though it happened thousands of years ago.

Ancaeus, King of the Leleges in Samos, an island in the Grecian Archipelago, was notorious for his inhumanity to his slaves.

The king planted a vineyard and a daring slave prophesied to him that he would never taste the wine of its grapes.

When the wine was ready the king sent for this slave and taunted him with his prophecy.

"There's many a slip," returned the slave grimly, "twixt the cup and the lip."

No sooner had he spoken the words than the king was notified that a wild boar had broken into his vineyard and was destroying it.

Ancaeus set down the cup of wine that he had not yet tasted and went out to drive away the boar, but the animal killed him, and the cup never reached his lips.

MUSICAL MADHOUSE

Stiggins: "Are there any musicians in your family?"

Wiggins: "Ra-ther! Why my father is an adept at blowing his own trumpet, and mother is equally expert on harping on one string; pa-in-law has to play second fiddle, and aunt Tabitha leads a humdrum existence. Uncle spends his time in wetting his whistle, and Harry is fond of his pipe."

DOCTORS CHECK KIDNEYS FIRST

Because they know that healthy Kidneys remove from the blood the waste matter—the excess acids and poisons, formed by the ever-changing human body as it decays and rebuilds itself. But if the Kidneys fail, illness surely follows. Backache, Rheumatism, Impure Blood, Lack of Energy, Too Frequent Urination, Sleeplessness, Headaches—all may result from faulty kidneys. As a health safeguard—as a wise precaution—regulate your kidneys frequently with Dodd's Kidney Pills—for over fifty years the favorite Kidney remedy—non-habit forming—safe. 105

That Body of Yours

(By James W. Barton, M.D.)

IS IT SAFE TO TAKE MORNING EXERCISE

I've been wondering how many overweights and others stopped taking their regular morning exercise a few months ago when the newspapers carried an article by Dr. Boigey, Paris, on the danger of getting up rapidly from bed and lying on the floor to do abdominal exercises—raising legs from floor.

Dr. Boigey points out that this exercise gave the blood vessels in the head a distinct blow by sending the blood to the head too rapidly owing to the fact that at the moment of awakening there is a rise in blood pressure, and the circulation of the blood becomes stronger. Exercise at this time increases the congestion of blood in the brain because the vessels have not had time to adjust themselves to this extra flow of blood. It is, therefore, important for these individuals to stay in bed long enough to allow the circulation (which has been at a slow rate during sleep) to become normal in rate.

However, there was one point that the newspapers did not mention or emphasize. This precaution (not jumping out of bed when first awakening) was for individuals past fifty years of age. After resting for ten minutes "persons beyond fifty years of age," and all those with high blood pressure should then dress to avoid sudden cooling of their bodies before taking the exercise.

Dr. Boigey thinks that these persons—those over fifty and those with high blood pressure—should exercise between four and six p.m., as at that time of day their body temperature, muscular strength and general vitality are at their best. The exercise should be done without much effort or speed because their main object is to conserve the suppleness of the muscles.

There is no question but that for the average middle-aged individual lying in bed for five or ten minutes before getting up to take exercise is wise. I have taken my pulse when I first awakened and found it to be sixty-six, then lay thinking for five to 10 minutes and without moving the body have found it at seventy-two or even seventy-six—the normal rate. With the heart beating at seventy-two to seventy-six it is quite safe to take any form of exercise.

The thought, then, is that everybody of any age can take exercise every morning, but those past fifty and those with high blood pressure should rest five to ten minutes after waking before taking the exercise.

NOBLESSE OBLIGE

"How dare you swear before my wife?" said the indignant husband. "I'm very sorry, sir," replied the other man. "I was unaware your wife wished to swear first."

POOR HIGHWAYS IRK TOURISTS

Summer Visitors Loud in Their Complaints of Island Road Conditions

Visitors from California like this city and the upper Island, have little complaint to make of hotel accommodation, are loud in their praise of the courtesy of Canadians they meet during they stay in British Columbia, but are almost unanimous in condemning Island roads and highways.

A survey of questionnaires sent back to the Victoria and Island Publicity Bureau by Californians who were Summer guests shows that practically every car owner who came here objects to the condition of the highways. This complaint, which has an impressive catholicity, comes from Beverly Hills, Los Angeles, Marysville, Riverside, Alameda, San Francisco, Oakland, Redwood City, Burlingame, Long Beach and Compton.

"Your highways are terrible," writes one tourist, while others chorus: "Your highways should be repaired"; "Your highways are very rough"; "Between Victoria and Nanaimo, thirty miles an hour is fast driving"; "We thought the road to Nanaimo could be improved and widened"; "The road from Victoria to Nanaimo could be greatly improved"; "Your roads are not what we are used to."

After reading such complaints, it is encouraging to learn "the general courtesy and attitude of your people is splendid," and that "we appreciate the great hospitality of your citizens."

Others say: "I hope you will always keep that 'certain atmosphere';" "the lack of high pressure on the part of your salespeople was a relief"; "your residents were helpful and pleasant."

A Sacramento man, irate over the Provincial liquor system, suggests "You should form an American club to serve cocktails to visitors at a moderate charge."

Shows Films of Visit to Russia

An illustrated lecture on Russia was given by Fred Spencer before members of the Catholic Youth Organization and their friends in the clubrooms, Tuesday evening.

His account of the living conditions in that country and the motion pictures which accompanied it proved highly educational as well as entertaining.

The speaker was introduced and thanked for his address by Arthur Leonard.

Last Sunday morning, Mrs. George Murray, editor of The Lillooet Observer, addressed the members at their Communion breakfast.

Mrs. Murray gave an interesting account of her recent trip to the Orient, and the many narrow escapes which she and her husband, who is member for Lillooet in the Provincial Legislature, had there during the Sino-Japanese conflict in Shanghai.

"What makes your wife so suspicious of your stenographer?"

"It so happens that my wife was my stenographer before I married her."

CULBERTSON on CONTRACT

By Ely Culbertson

World's Champion Player and Greatest Card Analyst

(Mr. Culbertson is conducting, through this column, a national examination of bridge players. Rate yourself by subtracting from 100 the points for each wrong answer.)

YESTERDAY'S QUESTIONS

Question 30—Both sides vulnerable. You are South. North deals and bids one spade. Next hand (East) doubles. Your holding is:

♠ Q 10 8 7 5 ♥ 4 ♦ K J 6 3 2 ♣ 4 2

What call do you make?

Answer—You should jump to four spades. This, of course, is a preemptive (shut out) raise. It would be naive to redouble one spade merely because you "like" your partner's bid. Obviously, the opponents never would permit you to play the one spade redoubled and thus you would only be giving them opportunity "to get together" and select a suit of their own. (Two points demerit for redoubling, or bidding two spades or two diamonds. One point demerit for jumping to only three spades.)

Question 31—Both sides vulnerable. You are South. North deals and bids one spade. Next hand (East) doubles. Your holding is:

♠ 8 ♥ A J 9 4 ♦ K J 8 3 ♣ K 10 7 6

What call do you make?

Answer—You should redouble. You have such strength outside of the spade suit that you need have no fear of playing one spade redoubled. Partner will be able to make sufficient side suit tricks to compensate for trump losers. Your redouble asks partner to let you "take charge" and, obviously, you are prepared to massacre any take out opponents may make. Any action other than a redouble on your part will let the opponents "off the hook," which at the moment they most decidedly are on. (Two points demerit for any call other than redouble.)

TODAY'S QUESTION

Question 32—Both sides vulnerable. You are South. North deals and bids two spades. Next hand passes. Your holding is:

♠ J 8 4 3 ♥ 2 ♦ Q 7 5 4 3 2 ♣ 5 2

You respond two no trump. After West's pass, North bids three hearts. East passes.

What call do you make now?

The bidding

South	West	North	East
1 ♠	Pass	2 ♠	Pass
3 ♠	Pass	Pass	Pass

West opened his fourth best club. East took the ace and returned the queen. Declarer drew two rounds of trumps, ending in dummy, and then led a heart to his own jack. West won the queen and made a foolish and fatal return. On the superficial reasoning that he never could make more than two heart tricks, since dummy had only two, West cashed the heart ace. Then, since he could not lead a club without establishing dummy's ten, he reluctantly led a low diamond from the queen. East's ace won, but the defenders had taken their last trick. On a diamond return, declarer put up the king and discarded dummy's third diamond on the established king of hearts.

West's reasoning regarding the number of hearts he would win was, of course, correct, but he had totally overlooked another contingency, namely, that the release of the ace would establish a high heart in declarer's hand that otherwise could have been trapped. Declarer already had shown the ace-queen of spades, the king of clubs, and probably the king-jack of hearts. If he had held the ace-king of diamonds as well, he certainly would have jumped to four spades over two, instead of making the tentative game try of three spades. Thus West could count on his partner's holding at least one high diamond honor. Instead of releasing the heart ace, West should have shifted to a low diamond. East would win and return a diamond, thus insuring two diamond tricks for his side. These, with two hearts and the club ace, would have defeated the contract and given East-West a good, instead of a bad, match point score on the board.
